### MURPHY, PERKINS AND LEWIS CONFER ON AUTO STRIKES

Nine-Hour Washington Meeting Proves Fruitless, But Secretary Declares It Was Not a Failure; Others Silent.

G. M. C. Holds to Stand That Agreement Is Impossible Until Men Evacuate Flint Plants.

DETROIT, Jan. 19.—(AP)—The next step toward settling the strike which has nearly paralyzed operations of the General Motors Corporation, if determined, was not revealed tonight after a nine-hour conference in the Department of Labor at Washington.

Present at the session were the head of the department, Miss Frances Perkins; Governor Frank Murphy, of Michigan, and John L. Lewis, head of the Committee for Industrial Organization, which has been supporting the strike of the United Automobile Workers of America.

Secretary Perkins indicated that the lengthy discussion had not resulted in any solution of the labor situation but she said the conference was not a "failure."

"Other people who are trying to do things need a few more hours," she said, without revealing who the "other people" were or what they were doing.

James F. Dewey, federal labor conciliator who has spent considerable time in Michigan recently trying to compose the differences between the union and General Motors, also attended the conference.

Murphy, Lewis and Dewey declined to comment.

Secretary Perkins said that during the day the conference talked with General Motors executives by telephone.

No intimation was given by anyone as to what would be done next to settle the strike which has left 115,000 General Motors employees idle and countless others out of work in dependent industries.

When Governor Murphy arrived in

### New Federal Decision Blocks Prior Ruling

Federal Judge E. Marvin Underwood yesterday granted a temporary injunction to the Tennessee Valley Authority restraining the Georgia Power Company from enforcing an injunction previously granted by a federal court in Tennessee.

The injunction of the Tennessee court, it was held, nullified a previous ruling made in this court district by United States Circuit Court Judge Samuel H. Sibley.

Judge Underwood ruled the TVA had a right to a hearing in its case and opened the way for the TVA to bring forward a permanent injunction. Under the ruling the TVA, restrained under the Tennessee ruling from continuing work and other activities incident to the sale of power, may now proceed in Georgia with this work.

### Railroad Wins Suit For Damage by Auto

ANN ARBOR, Mich., Jan. 19.—(AP)—Casper Goldsmith's automobile won at least a draw when it tangled with a freight train, but Casper himself lost the decision in a circuit court case today that grew out of the accident.

Judge George W. Sample ruled that Goldsmith must pay \$433.23 for damages to the freight car derailed by his machine. The judgment was awarded the Ann Arbor Railroad Company.

### EIGHT LIVES TAKEN BY FLOOD WATERS IN SEVEN STATES

Thousands Homeless and Many Villages Isolated; Ohio at Danger Point Along Entire Course.

By the United Press.

Eight persons were dead, thousands homeless and many villages isolated last night by flood waters which engulfed lowlands of seven states.

No estimate of damage was available but state officials counted loss in debris-strewn farms, disrupted communications, splintered bridges, broken levees and closed factories.

Uncounted Mississippi river valleys awaited Red Cross mobilization for clothing and food. Works Progress Administrator Harry L. Hopkins, in Washington, reported 2,650 WPA workers on emergency duty in the flood areas.

**Sweeps Over Barricade.** The raging waters swirled over hastily erected levees and flooded lowlands in Pennsylvania, Ohio, West Virginia, Indiana, Illinois, Missouri and Kentucky. Tennessee and Arkansas were threatened.

Three persons were dead in Ohio, two in Indiana, two in Illinois and one in Missouri.

The great Ohio river roared over its banks in many sections and strained at flood stage its entire 1,000-mile course. At Cincinnati, where flood stage is 52 feet, the river reached a 56-foot level. A crest of 50 feet was feared.

Most critical points were believed in Campbell and McLean counties, Ky., where more than 1,000 were forced from their homes and at Kennett, Mo., where the St. Francis river broke through levees in five places inundating thousands of acres.

Two army engineers and a WPA supervisor escaped death when they were swept into the river by the St. Francis river. National guardsmen, WPA workers and volunteers, desperately attempting to stem the tide, were marooned temporarily. Families residing in the area were endangered.

**Ohio Valley Warned.** Residents of 50 lower Ohio valley villages were warned to be ready to evacuate as flood stages threatened. Floods were predicted for the Marietta, Ohio, area.

Five hundred moved out of river-side homes at Ft. Pleasant and Parkersburg, W. Va.

Mines and schools in the southern Illinois coal field area remained closed. Over bank industries throughout the flood district were shut down.

Fifty families evacuated near Evansville, Ind., and additional workers were ordered to Hazelton, Ind., to reinforce levees.

The Red Cross gave emergency shelter to 500 families near Kennett, Mo., and to 50 at Dexter, Mo. Disaster relief headquarters were set up at Evansville, Ind., the Red Cross announced.

Nine Indiana counties, where flood waters were reported the worst, were given emergency relief. The Mt. Carmel, Ill., city council issued

### MATTSON SUSPECT REPORTED TO 'FIT' KIDNAPER PICTURE

Another Is Being Made To Grow a Beard; Average of 20 'Tips' an Hour Are Received by Police.

TACOMA, Wash., Jan. 19.—(AP)—Federal agents sent flying squads on the trail of scores of fresh "tips" in their hunt for the kidnaper of little Charles Mattson tonight while Portland, Ore., police questioned a man they said fitted "perfectly" the description of the actual abductor.

Detective Captain J. J. Keegan announced the detention at Portland of George Wilson, 38. He said the man raged against families of wealth and mentioned specifically that of Dr. W. W. Mattson, Charles' father.

Bellingham authorities continued to hold Leigh Haskell Fowler, 36, convicted robber, despite the fact Sheriff W. T. Farmer announced yesterday he would be taken soon to the state prison.

**Forced to Grow Beard.**

An authoritative source said Fowler was being forced to grow whiskers, and indicated it was in preparation for a visit from Virginia Chatfield, the children who witnessed the abduction.

Miss Chatfield saw Fowler's picture several days ago and said it did not appear to be a likeness of the bewhiskered man who seized Charles. However, federal agents have continued to question the prisoner, who was convicted of robbing a mill at Bellingham.

Captain Keegan said the Portland police would go deeper into Wilson's affairs.

"This man certainly resembled the published description of the kidnaper," he said. "We will know better about him, of course, when the Mattson children see his picture."

He referred to William and Muriel Mattson, brother and sister of the slain boy, who with Miss Chatfield, saw the masked kidnaper take Charles.

**Search of Woods Ends.** The three-day search of woods and fields near Everett, Wash., for clues to the kidnaper, the weapon with which he killed Charles and the actual scene of the abduction ended today, when all but the regular Everett force of state patrolmen left the district.

Several federal agents remained in the area, however. Charles' body was found January 1, but was reported acting as a "flying squad" running down recouping rumors.

"It's not even yet for evidence at Everett were not made public. Two men, their names undisclosed, were believed held in connection with the case, one at Compton, Cal., near Los Angeles, and the other at Astoria, Ore."

**Twenty 'Tips' Hourly.** Harold Nathan, assistant director of the Federal Bureau of Investigation, remained in Los Angeles, where officials said, the agents are receiving an average of 20 kidnaper "tips" hourly.

Officers at Astoria said no attempt had been made to question the man held there. A Seattle officer had released the man, formerly a Seattle jail prisoner, told a cellmate he would "pull a big job in Tacoma" when he was released.

### YOUTH IS INDICTED FOR KIDNAP-EXTORTION

NEW YORK, Jan. 19.—(AP)—Austin H. V. Ryan, 10-year-old Mount Vernon, N. Y., boy who said he thought he could "pull as clever a snitch as the Mattson kid" was indicted today by the Bronx county grand jury for blackmail and attempted first-degree grand larceny in connection with the disappearance of 16-year-old Robert J. Young, who is still missing.

Ryan, a detective story fan, wept as he admitted, police said, that he wrote letters to Bert J. Young, of New Rochelle, N. Y., claiming that he had the latter's son in his possession.

Ryan allegedly wrote several threatening letters to the missing boy's father.

SANTA MONICA, Cal., Jan. 19. Say what you will, a second inauguration is like a second helping of cantaloupe—somehow it never seems to taste as good as the first one did.

Moreover, among the faithful, an office-holder is rarely as enthusiastic over the proceedings as an office-seeker would be. It makes quite a difference whether a fellow is hungry and hopeful, or well fed and reasonably safe from worry about the good old pay check during the election year.

### NEW FLIGHT MARK IS SET BY HUGHES

Young Movie Producer Rockets Across U. S. in 7 Hours, 28 Minutes.

NEW YORK, Jan. 19.—(AP)—Sucking oxygen through a rubber tube most of the way, Howard R. Hughes, millionaire sportsman pilot and movie producer, flashed across the continent at an average speed of nearly 5 1/2 miles a minute today to set a new "fast" air record.

His average speed on the flight was 333 1/2 miles an hour.

The lanky, 34-year-old amateur flyer drove his specially constructed, bullet-shaped monoplane from Los Angeles to Newark in 7 hours, 28 minutes, 25 seconds by official clocking.

The previous record, which he set January 14, 1936, was 9 hours, 25 minutes, 10 seconds.

Tired, oil-splattered and "a bit shaky" after rocketing nonstop across the country, Hughes climbed out of his cockpit at Newark airport and smilingly told of escaping near-disaster when his in-flight fuel tank at an altitude of 20,000 feet.

**Legs Paralyzed.**

"It was near Winslow, Ariz., about an hour and a half after he had roared away from Los Angeles, he said, using 'suddenly' I found that my arms and legs were practically paralyzed."

"I could not get enough oxygen. I could not even get my hand up to my face. I knew that in a few minutes I was going to sleep. It was a helpless, hopeless feeling."

Following the regular route of a commercial transport line over a 2,400-mile dash, the producer of "Hell's Angels" and other screen successes said he picked up a tailwind at Kansas City which helped speed him on his way.

By throttling his 1,000-horsepower engine down to about 45 per cent of its capacity, he averaged 10 miles to a gallon of gasoline, he said, using only about 200 gallons of the 280-gallon load. He hit a top speed of 370 miles an hour over one stretch.

Flying the rebuilt racer in which he established a world land plane speed record of 352 miles an hour in 1935, Hughes took off from Union Air Terminal, Los Angeles, at 2:14 a. m. Pacific standard time (4:14 a. m., Atlanta time).

Newark airport officials checked him in over the field at 12:42:25 p. m.

### Georgia Party Brings Cheer To Rain-Swept Washington

Reception Honoring Governor and Mrs. Rivers Features Pre-Inauguration Day as Dignitaries Flock To Meet New Leader of State.

By RALPH MCGILL.

WASHINGTON, D. C., Jan. 19.—Rain swept across Washington today, making limp and wet the inaugural flags along Pennsylvania avenue.

But when the trains from Georgia arrived in the afternoon the city began to take on a more cheerful hue.

And when the debut party of that blushing debutant governor, E. D. Rivers, was held in the late afternoon, Washington was paying homage to Georgia. And President Franklin D. Roosevelt sent word that if he was not still busy putting

commas and semicolons into his inaugural speech he would come over and join in the fun.

**Reception for a Fighter.** No governor of Georgia ever had such a reception as did this young man from Georgia, the great little fighter who led the state back into the Democratic party.

And certainly no debutant ever had a finer assembly of guests to honor him.

The cabinet was there. The under-cabinet was there. Senators, congressmen and other dignitaries of the of

### 39 ARE DISMISSED IN SANITARY BODY

Personnel Reductions by Other Departments Are Expected in Quick Order

Reduction of personnel on the city pay rolls began yesterday, following Mayor Hartsfield's official approval of the 1937 balanced budget, when H. J. Cates, head of the sanitary department, cut 39 employees from his list.

Department heads are expected to follow his example swiftly, since reduction in personnel as provided in the budget becomes effective Saturday under order of Mayor Hartsfield and City Comptroller B. Graham West.

No estimate of the number of workers who will lose their jobs could be obtained yesterday, because the budget provided the 6 per cent personnel reduction shall be reflected in the department pay rolls in terms of money.

### CONGRESS RENEWS MONETARY POWERS

Stabilization Fund and Presidential Gold Authority To Be Continued

WASHINGTON, Jan. 19.—(AP)—A bill equipping President Roosevelt with renewed powers to shape the dollar's future at home and abroad need only the President's own signature tonight to become law.

Much to the satisfaction of the treasury, congress passed the two-fold measure with a rush today. It provides:

1. That the treasury's \$2,000,000,000 stabilization fund, which is used to buy or sell currencies for the purpose of quelling monetary disturbances, shall be extended until June 30, 1938.

2. That the President's power to cut the gold content of the dollar shall be extended until the same date.

Both powers had been due to expire at the end of the present month.

Hailed by administration Democrats as a great stabilizing influence in a world prone to monetary spasms, the bill is assured of Mr. Roosevelt's signature. In congress today, the big Democratic majority steam-rollered every Republican attempt to alter it. Finally it swept through each chamber without a record vote.

**Republicans Defeated.**

By a 42-32 roll call vote in the senate and a 93 to 59 standing vote in the house, friends of the legislation brushed aside Republican proposals for a complete audit of the stabilization fund after it has been discontinued.

House Republicans were shouted down on a proposal to end the revaluation power June 30, 1938. Then they were snowed under by a 107-to-52 standing vote and a 307-to-75 roll call ballot on a demand for deletion of the entire section prolonging the President's authority to alter the dollar.

Democrats listened but paid little heed when Senator Vandenberg, Republican, Michigan, in the senate, and Representative Swope, of New York, the house Republican leader, said the treasury had no objections to submit-

### BRILLIANT PARADE TO BE HIGHLIGHT

Governors of More Than Thirty States on Hand To Celebrate Triumph of National New Deal.

By GLADSTONE WILLIAMS.

WASHINGTON, Jan. 19.—Despite overcast skies and a dismal forecast several hundred thousand loyal supporters of the New Deal, including many from Georgia, poured into Washington today preparatory to the second inauguration tomorrow of President Roosevelt.

The official weather forecast of sleet or snow, which earlier failed to dampen the enthusiasm of the crowds, gave way later to a prediction of rain with temperature slightly above freezing, as more than 125 special trains, disgorging delegations from every section of the country, presaged that the ceremonies of Wednesday will be witnessed by one of the greatest throngs in history.

Contrasting sharply with the black clouds of depression which enveloped the nation four years ago when Mr. Roosevelt first took office, a carnival atmosphere prevailed.

On every hand there was evidence of returning prosperity that has followed in the wake of the New Deal. Hotels were jammed to capacity, private residences were called upon to accommodate the visitors, while many thousands found it necessary or more convenient to use the sleeping facilities of the Pullman cars which brought them to Washington.

**Roosevelt Finishes Address.**

President Roosevelt, central figure along with Vice President John N. Garner in the simple drama of history to be re-enacted tomorrow, spent an uneventful day at the White House putting the finishing touches on his inaugural address. Shortly before noon the chief executive will drive to the capitol plaza, there to receive the oath of office at the hands of Chief Justice Charles Evans Hughes in the presence of a vast assemblage made up of his cabinet, high dignitaries of the government, diplomatic representatives of foreign governments, members of congress, governors of the individual states and their staffs together with the thousands of others lucky enough to be onlookers on the scene.

After taking the oath Mr. Roosevelt will

## JAPANESE PARLIAMENT TO RECONVENE TODAY WITH FUTURE AT STAKE

Army or Civilian Control of Nation Hinges on Legislators' Actions.

TOKYO, Jan. 20.—(Wednesday).—Japan's imperial diet will reconvene Thursday with its own survival or the advent of a military type of fascism at stake, political observers predicted today.

Speeches by Prime Minister Koki Hirota, Foreign Minister Hiroshi Arima and Finance Minister Eiichi Baba will be the main business of reconvening day.

Japanese political writers are united in the belief that every member of the two houses—peers and representatives—realizes this session may decide whether Japan will continue the forms of parliamentary government or turn to some kind of military dictatorship. Fascist regime under the throne, which all agree is unshakable.

On the side of parliamentary democracy are aligned the political parties, backed by the great majority of business and industrial leaders. On the other side are the army men and their allies, the nationally inclined bureaucrats entrenched in nearly all branches of the government.

The army and navy are believed certain to fight to the end for huge defense appropriations.

The budget allotted to the army about \$200,000,000, to the navy about \$195,000,000. The defense services contain these funds, largest in the empire's history, are necessary to build up a fighting machine capable of coping with the dangers of the world situation.

The cabinet, standing in most things half-way between the political parties and their democratic allies and the militarist-bureaucratic clique, stands with the latter on the budget issue.

Forseeing a turbulent session, the government has enrolled a corps of 1,500 special armed guards for the diet premises.

## MURPHY SEEKS TO END AUTO INDUSTRY STRIKE

Continued From First Page.

the capital of Detroit he indicated that he had "a definite plan of procedure in mind." It was not known what that was, nor whether it had been altered as a result of the day's conversations.

A strike in one of the plants of the Briggs Manufacturing Company, in Detroit, was settled today after an outbreak of disorder in which a "picket line" of United Automobile Workers of America forced the company to shut down, despite a tear gas attack during which police tried to break the line. The action was not directly related to the General Motors situation.

One point still blocked, as it has for more than two weeks, any negotiations between General Motors and the union.

That was the occupancy of two Fisher Body plants at Flint, Mich., by strikers who have held their posts since December 30 in spite of a street battle with police that injured 27 persons and caused 2,800 national guardmen to concentrate in the automobile center.

G. M. C. Determined. Homer Martin, U. S. W. A. president, said today these strikers would not be withdrawn "for any reason until the strike is terminated." General Motors held to its stand there but has no collective bargaining until the union men leave the plants.

Governor Murphy's first peace effort produced a true agreement providing for removal of all "sit-down" strikers and start of direct negotiations on eight union demands Monday. The union evacuated three plants, then kept its members in the Fisher factories charging General Motors violated the truce. As a result the negotiations collapsed.

Martin claimed the corporation acted in "bad faith" in agreeing to negotiate with the "Flint alliance," a group formed to give expression to anti-strike sentiment, on its request for a collective bargaining conference on behalf of non-union employees.

George E. Boyer, organizer and head of the alliance, said today it would accede to Governor Murphy's wish that "civil and order organizations hold themselves in the background" pending renewed settlement efforts. Martin immediately said this would not enter the picture after we had begun actual negotiations with General Motors.

Pickets Form Wall. The clash between union pickets and police at the Briggs plant today, where approximately 100 men had been on strike for a week, came when the pickets formed a circular human wall in front of the employees' gate, threatening to break in 20-degree temperatures.

Additional effect of the strikes was seen at Bloomfield, N. J., where John A. Foley, Chevrolet plant manager, announced 300 employees would be laid off tomorrow from the export division of the plant because of inability to get stampings from closed Fisher plant at Cleveland, Ohio.

T. C. I. STRIKE CALL IS POSTPONED. BIRMINGHAM, Ala., Jan. 19.—(UP).—A strike of 2,000 iron and steel workers of the Tennessee Coal, Iron and Railroad Company, imminent for more than a week, tonight was postponed again pending further conferences.

After a 40-minute conference with T. C. I. officials today, mine union leaders emerged from the parley room and postponed the strike call. Details of conversations during the 40-minute conference were not revealed and there was no indication when union officials hoped to reopen negotiations with company heads.

The defense junta earlier claimed capture of the whole town, the geographical center of Spain, 1-2 miles south of Madrid, calling it "one of the most important" operations thus far carried out by the government forces.

Later reports said the insurgents were holding out in the church and hotels. More than 200 Fascist prisoners were taken to the war ministry for questioning. Officials said they seized one cannon, 12 machine guns, two mortars and ammunition.

## "First-Nighters" in Costume at Theater Guild Play

In keeping with the spirit of the period portrayed on the stage, "first-nighters" went in costume to the renovated Atlanta theater, where the Atlanta Theater Guild's first production, "The Drunkard," opened last night. Left to right are Miss Virginia Courts, Mrs. Linton Hopkins, Mrs. Robyn Peeples; rear, Tucker Wayne, Sam Weyman and Linton Hopkins.

Actors in the Atlanta Theater Guild's first production, "The Drunkard," a melodrama of the period of the stage play. Left to right are Mrs. Ruthford Ellis, Mrs. William Wellborn, Mrs. Edward Van Winkle; rear, Alec Hopkins, R. L. Ellis, William Wellborn and Edwin Peeples.

Richard Frankenstein, U. A. W. A. organizational director, who instructed the pickets from a sound truck, said the maneuver was staged after 350 employees had been discharged because of their union membership. The plant produces bodies for the Lincoln Zephyr division of the Ford Motor Company, and the Dodge division of the Chrysler Corporation. It employs 1,800 men.

Police tried to open a path to the gates. Inspector Louis L. Berg, trying to rescue William Myers, plant manager, from a group of pickets, was temporarily overcome by an exploding gas bomb. Neither he nor Myers required hospital treatment. Police Sergeant Vaughan Rogers said he saw a picket roll a tear gas bomb toward Berg.

Before the Briggs strike was settled, Martin had telegraphed Governor Murphy urging "any action as you may deem necessary to prevent further violence of this kind" and charging the police used tear gas "without any justification."

Employees Laid Off. Announcing the strike settlement, the Briggs management said a misunderstanding arose concerning several employees laid off because of lack of material, that "this situation now has been corrected," and that the company would reopen tomorrow, rehiring "all employees who have been laid off during the past several weeks."

While Murphy conferred with Lewis and Miss Perkins, a statement by officials representing 22 unions of the building and metal trades departments of the American Federation of Labor stated they would act "to prevent any other organization in the automobile industry from exercising assumed authority to represent" A. F. of L. unions. The C. I. O. has been suspended from the federation because of Lewis' policy to organize labor by industries rather than by crafts.

John W. Smith, acting mayor of Detroit, said he would go to Washington to talk with Murphy on a proposal of five clergymen and an educator for a citizens' "fact-finding committee" to study the automobile situation.

He emphasized he would do nothing that might prevent Murphy from exercising a "free hand" in conciliation efforts.

An additional effect of the strikes was seen at Bloomfield, N. J., where John A. Foley, Chevrolet plant manager, announced 300 employees would be laid off tomorrow from the export division of the plant because of inability to get stampings from closed Fisher plant at Cleveland, Ohio.

## POWER POLICY PLAN IS LAUDED BY NORRIS

Proposed Pooling of Federal, Private Utilities Opposed by Nebraskan.

WASHINGTON, Jan. 19.—(AP).—Senator Norris, Indiana, Republican, applauded today President Roosevelt's choice of men to formulate a uniform national power policy.

The senator is a leading champion of public power development. He is opposed to the proposed "pooling" of federal and private power. This issue, involving the question whether the government should join in developments with privately owned networks or push them independently, is one of the major issues to be considered by the President's policy makers.

The five-man committee which Mr. Roosevelt appointed yesterday was called together this afternoon by its chairman, Secretary James C. McHugh.

"I gather that the President wants a draft of legislation at the earliest possible moment," he told reporters prior to the session.

As chief of the Public Works Administration, Ickes in the past has approved many federal loans and grants for municipal power projects. He also has ordered his legislative staff to fight injunction suits aimed by private companies at such projects.

With the possible exception of Frederick A. Delano, uncle of the President and vice chairman of the National Resources Committee, all the policy committee members have clashed at some times with private utility interests.

One of them, Morris L. Cooke, the rural electrification administrator, said in a magazine article recently that users of electricity were overcharged more than \$400,000,000 last year. He predicted "some extension" of public power through federal, state and municipal agencies. Cooke advocated joint use of existing power lines, however, to avoid duplication of facilities.

Frank R. McNinch, another member, was appointed to the Power Commission by President Hoover and his reappointment was championed by Senators Norris and Wheeler, Democratic Montanas.

Robert E. Healy, securities commissioner, conducted a trade commission investigation of public utility holding companies, which many legislators say is issued by Roosevelt utility holding company act.

Delano, in his work with the National Resources Committee, has urged "exploitation of public resources for public interests."

## SANITARY DEPARTMENT DROPS 39 FROM ROLLS

Continued From First Page.

Monday before the city can possibly pay off, since printing of scrip will not be completed until Friday, and salary schedules will likely not be finished before Saturday. Employees will be eliminated until the city can pay off the scrip.

Mayor Hartford said "yesterday that scrip, or salary certificates, will be issued to employees by the city and that the banks will cash scrip on presentation."

Department heads were sent copies of the salary schedule yesterday.

In addition to the 6 per cent reduction in personnel, the budget cuts employees drawing \$100 or less by 10 per cent, and making \$101 or more by 10 per cent from the basic salary schedule.

Hornby, Bridges To Confer. Acting Police Chief M. A. Hornby, in preparing his new salary schedule, is to confer today with Mayor Hartford and the 17 members of the police committee, concerning eliminations from his department.

A special meeting of the police committee will likely be called to work on the problem.

Bridges said "it appears that approximately 14 regular policemen and eight or 10 clerical workers will be cut in order to meet the department reduction." If this is done, it was understood that 14 supernumeraries now working regularly will be put on the supernumerary list.

Hartford today will sign the council resolution cutting vacations for all departments where vacations are not given, to two weeks. This will add extra man power to the police force and to the fire department as well.

Ten Firemen To Go. Fire Chief O. J. Zarke is to reduce his force 10 men, which will save \$17,000 per year.

Cates, in preparing his new salary schedule, is to confer today with Mayor Hartford and the 17 members of the police committee, concerning eliminations from his department.

The men eliminated sweep the downtown streets and gutters during the day. Cates said that "the city will not look quite so clean but the streets will be washed and swept every night as usual."

The number of employees will be cut off in the water department, but Zode Smith, head of the department, said he could not tell which ones will go.

Three persons will be dismissed in the tax assessor's office, one in the purchasing department, one in the building maintenance department, one in the clerk's division, five in the motor transport department, and two or three in the office of the collector of municipal revenues.

It was not known how many will be eliminated from the construction department and the parks department, two of the largest in the city. George I. Simons, head of the parks, said it will be a day or so before he will have his new schedule prepared.

Nine small departments are not required to reduce personnel but all employees will receive the uniform 5 and 10 per cent cut from basic pay.

Reduction in personnel will mean curtailment of service to the public in many instances, department heads said.

receiving details of the restructuring attack on Mail Breze yesterday.

The destroyer was destroyed twice but was not damaged. The aircraft was a tri-motored bomber without markings, officers of the ship said.

The pilot, seen at 8,000 feet, dropped fire bombs which fell about 500 feet away. The commander declined the request of his crew for permission to direct antiaircraft fire at the plane.

## Pending Bills To Raise Standard Of Schools in State, Says Collins

Three Measures Awaiting Legislative Action Explained and Praised by Georgia Superintendent of Schools, in Interview.

Dr. M. D. Collins, state superintendent of schools, views three educational bills pending in the Georgia general assembly as the means of raising the standards of all public schools in the state.

The bills call for the state to guarantee all counties the minimum cost for the seven-month school term, to be paid by the state to furnish free text books to all students and for a reorganization of the State Board of Education.

Dr. Collins said in an interview, "is one that we have needed in Georgia for a long time. It is an unusually constructive program, and it will guarantee operation of all common and high schools for only seven months, it virtually means that local educational authorities, through using their own funds, will be able to run their schools for the regular nine-month periods."

No Local Interference. Dr. Collins emphasized his interpretation of the bills as not interfering at all with set-ups as they exist now in the various city and county school systems.

State-aid money will be administered by the various local boards under the new plan. Chief reason for the bills to be met for the local units to receive the aid concern the maximum number of pupils per teacher. The bill, however, will establish a definite rate of pay for teachers, and will pay this sum for seven months of the year.

There is nothing in the system," he said, "to reduce the opportunities of any student in any section of the state. The act is intended to standardize education, opportunities throughout the state. This will not be through a leveling process. It will be through raising the standards of most schools to meet those of the best schools in the state.

Among the benefits of the Board of Education reorganization measure, he said, would come from the provision permitting the board to raise its funds to match any educational monies available from the federal government.

U. S. Funds Available. Beginning July 1, he said, the federal government will increase monies available to the state for vocational education.

If the state can get the \$600,000 available, he explained, it will be able to provide agricultural teachers and vocational instructors in all counties of the state.

"While many schools already offer these courses," he said, "some of the counties which need them most are unable to afford them."

"The new federal aid should allow us to put these teachers in all counties not having them."

For various other educational purposes, the federal government later this year will make a fund starting at \$2,000,000 a year and growing to \$7,000,000 annually available to Georgia.

By being able to make arrangements for receiving these funds, Dr. Collins said, the state educational system in a few years "would be sitting on top of the world."

More Adult Education. Extension of adult education facilities would be another possibility under the act, he explained. The larger cities of the state, through local and federal monies, operate "opportunity schools," permit increase of state funds to establish such schools in many of the smaller cities. The schools feature special occupational training.

Regarding the cost of the program, Dr. Collins said it would require approximately \$5,500,000 more than the state now spends on public schools. Present expenditures amount to approximately \$4,500,000 from the equalization fund and \$2,500,000 income from the six-cent tax being allocated for school purposes.

Requirements of the new system would be \$10,000,000 aside from the gasoline tax income, he said.

Free Books Cost. The free text book plan would cost, during the first year, something over \$1,000,000, he estimated. Legislative leaders are planning to raise at least \$1,000,000 for that purpose.

While the state now furnishes primary and secondary education, it does not furnish higher education.

## SQUIRREL LIFE SAVED BY DUBOSE SHOTGUN

Continued From First Page.

tion to me," Mr. Du Bose said yesterday. "I merely circled around it differently. So I tried throwing stones at it. My aim was not so good. It continued to circle and finally came to rest on the limb of a tree about 50 feet away, still paying no attention to my shouts or the stones I threw."

"I told myself: 'I'm going home and get my shotgun.'"

Mr. Du Bose lives at 2544 Rivers road, just two blocks away.

When he returned, the bird was still resting on the tree, disregarding several persons who had gathered below and were attempting to frighten it. Mr. Du Bose blazed away with his .12-gauge automatic shotgun and bird and squirrel descended to the ground, dead.

This was in a quiet neighborhood, where shotgun blasts echo violently among the hills. Families and servants emerged from near-by houses at frantic speed and within a few moments, a great crowd had collected.

"It's a hawk!"

"It's a big one!"

"The bird was as haughty and indifferent in death as it had been in life," Mr. Du Bose related the squirrel from the bird's standpoint and found that the little animal had been killed by the neat incision of a jugular vein with one claw. Mr. Du Bose announced to the crowd he would take the squirrel home and have it cooked. He offered the bird to anyone in the crowd as a possible source of chicken pie. No one accepted the offer, as the bird, in death, appeared capable of fighting a winning battle against the average organs of digestion.

Mrs. Euen, who had emerged from her home across the road, solved the problem:

"I'll have it stuffed. It's so pretty!"

She telephoned young Walter Wellborn, whom she knew as an accomplished young taxidermist who has rare success with preserving specimens of wild life.

"Sure, I'll be glad to stuff it for you," said Walter, a student at Keesee Junior High school. "I'll be over for it tomorrow."

"What must I do with it in the meantime?" asked Mrs. Euen.

"Keep it cold," advised Walter. "Put it in your ice box." "I certainly shall not put it in my ice box," exclaimed Mrs. Euen.

She left it on the porch and yesterday Walter told her when she stopped by the Wellborn home, that "it's all right, now, except for a little drying."

The young taxidermist has mounted it with wings spread and after examining his books, has decided it was a brownish hawk.

"We never see them down here," he said. "They come no farther south than North Carolina. This one must have been here and is fully hungry."

"I'm glad," said Mrs. Euen. "Mr. Du Bose was on the job and saved all those lovely squirrels we have about Habersham road. That have possibly would have wiped out all of them."

## COMMITTEE NAMED TO ALLOT INSURANCE ON STATE BUILDINGS

Revisions of Rates and Valuation Corrections To Be Sought by Group.

Appointment of a special committee to "reparate" insurance cancelled by Governor Rivers on state buildings was announced at the executive office yesterday. The Governor called Monday on all agencies awarded policies by former Governor Talmadge to return the unused premiums.

The announcement said the new committee would confer with the Southern Underwriters and other insurance agencies with the view of obtaining revisions of rates, corrections of valuations and possible changes in insurance forms.

John L. Conner, Atlanta insurance man, was named chairman of the Governor's group.

Other members were W. L. Norton, of Gainesville; W. C. Banks, of Lakeland; J. B. Polhill Jr., of Louisville; Marvin Pound, of Sparta; Mrs. Helen Coxon, of Louisville; Sam C. Connolly, of Villa Rica; Curtis A. Bryant, of Atlanta; W. W. Flanders, of Swainsboro; J. E. Forsyth, of Cairo; Zach Arnold, of Fort Gaines; Aaron Cohen, of Athens, and C. W. Peck, of Cedartown.

Talmadge let the \$6,000,000 worth of insurance, abrogated by Rivers shortly after the first of the year. The former Governor said at the time the premiums amounted to approximately \$70,000 and would make it "unnecessary" for the state to take out insurance for a two-year period.

The policies would have expired shortly before the end of Rivers' two-year term.

## 10-YEAR PROGRAM URGED FOR CITY

\$3,000,000 Yearly Expenditures Would Pay for Self, Schmidt Says.

Proposal for Atlanta to spend \$3,000,000 a year in a 10-year planned development program, was made yesterday by Walter S. Schmidt, nationally known city planning authority, at a special meeting of the Atlanta planning commission.

Schmidt, who spoke Monday night at the annual Chamber of Commerce dinner, told members of the planning commission that "increased wealth" in the city will pay for the 10-year program, which would include better housing, street and playground improvements, and increased hospital and health facilities.

He also advocated change in tax laws, elimination of slums, development of highways, and appropriations for specialized planning. The commission met on call of Wilbur Kurtz, the planning commission chairman. Schmidt is a resident of Cincinnati.

## Breaking Out, Not In, Negro Claims in Plea

"Mr. Judge, I was drunk and got locked up in that store. I didn't break it in."

Such was the defense offered yesterday in Fulton superior court by Frank Parker, 23-year-old negro, who was charged with burglary. Parker told the jury he had entered the store before it closed to buy a five-cent piece of candy and went to sleep by the stove, drunk. When he awoke, he said, the store was closed and everyone had gone. He explained the broken skylight and fingerprints on a pipe leading to the roof with "I broke the skylight to get out, not in."

The jury held Parker broke in the store and took \$4.83 from the cash register, however, Judge Blanton Portson, of the western superior court circuit, sentenced him to serve from five to ten years.

## ELKS PURCHASE HOME USED BY LOCAL LODGE

Deal Closed for Acquisition of Property at Peachtree and Fourth Streets.

Announcement has been made by the board of trustees and other officers of Atlanta Lodge No. 78, B. P. O. Elks, that a deal has been consummated for the outright purchase of the home now occupied by the local lodge, at the southwest corner of Peachtree and Fourth streets.

The Elks' lodge occupied this property, known as the old Carroll Payne home, for several years and has been considering its purchase almost since its occupancy. Recently a satisfactory deal was made with the executors of Mr. Payne's estate, a price agreed upon and a substantial sum turned over by the lodge as its first payment. With the constantly increasing membership among the Elks, and with the new enthusiasm engendered by the purchase of this large and handsome home, officials of the lodge declare it will be only a matter of a short time before the organization will completely possess the property.

As preliminary to final ownership, the house committee of the lodge has begun considerable remodeling and redecoration of the structure. It is proposed, according to plans of the committee, to make the Elks' Atlanta home a real community center, where friends and neighbors can gather for recreation, for partners and parties, and for social dances and banquets.

## JOHN CULPEPPER, EVANGELIST, DIES

Noted Minister Conducted Revival Services Over 60-Year Period.

The Rev. John B. Culpepper, celebrated evangelist, who had been actively identified in the work for the past 60 years, died yesterday at the home of one of his sons in Memphis, Tenn. He had been retired from active preaching for the past year.

Born in Taylor county, Georgia, the Rev. Mr. Culpepper was 88 years old and was said to have held more revival meetings in the south than any other evangelist. He was for some time associated with the celebrated Sam Jones in evangelistic work and began preaching the gospel when he was 19 years old.

He had been active throughout the country and particularly in the south and southwest. He held tent meetings in Atlanta during the late 90's and in 1921 held a series of meetings at the Inman Park Methodist church at the time the Rev. T. R. Kendall was pastor.

Surviving are two sons, the Rev. Burke Culpepper, of Memphis, one of four conference evangelists of the Methodist Episcopal Church, South, and the Rev. John B. Culpepper Jr., who is preaching in Okechoke, Fla. Three daughters, Mrs. S. P. Park, of 664 Somerset terrace, Atlanta; Mrs. J. G. Maceo, Orlando, Fla.; and Mrs. F. T. Shannon, of Monroe, La., and three nephews, W. W. Brown, of College Park; A. O. Brewton and C. B. Culpepper, of Atlanta.

Funeral plans will be announced.

## DR. HAL JOHNSTON DIES AT RESIDENCE

Former Legislator Was Head of Cotton Mills for Many Years.

Dr. Hal L. Johnston, retired physician and former state legislator, died yesterday morning at his residence, 785 Piedmont avenue, at the age of 85.

Dr. Johnston was a native of Rome, Ga., and served four terms in the legislature, representing old Campbell county. He was a member of the first assembly to sit in the new capitol building.

Up to his retirement several years ago, Dr. Johnston was for many years president of the Palmetto Cotton Mills.

He is survived by his wife; a daughter, Mrs. Nellie J. Pottler; a son, H. L. Johnston Jr., of New Orleans; a sister, Mrs. Jennie Cuthbertson, and several grandchildren.

Final rites will be held at 4 o'clock this afternoon at Spring Hill, with Dr. W. H. Borling officiating. Burial will be in Palmetto cemetery.

## JOHNSTON CONVICTED IN SLAYING OF PAIR

Found guilty on two counts of voluntary manslaughter by a Fulton superior court jury, Lewis Johnson yesterday was sentenced by Judge Paul S. Etheridge Sr. to serve one to five years on the chain gang on each count. The sentences will run concurrently.

He was charged with the murder of Garvin Russell and Anderson Cullins, Assistant Solicitor Quincy Arnold introduced evidence to show Johnson stabbed both to death in his home with an ice pick. J. O. Ewing, counsel for the defendant, offered a self-defense plea on each count for his client.

## WORKERS FOR BLIND TO MAP AID PROGRAM

The fifth district chapter of the Georgia Association of Workers for the Blind will meet at 3 o'clock today in the Chamber of Commerce building to draft a legislative program aimed at providing aid for the blind.

J. P. McGrath, chapter president, has announced that directors of the group will be present and that definite steps will be taken to afford some methods of providing for blind persons in Atlanta and Georgia.

## AGNES SCOTT HEARS SEMINARY PRESIDENT

Dr. Van R. Lacy, president of the Union Theological Seminary, Richmond, Va., and former pastor of the Central Presbyterian church, is delivering a series of lectures at Agnes Scott College, each morning in Gaines chapel.

The lecture series is sponsored by the college Y. W. C. A. as a feature of the annual religious week and will continue through Saturday. Dr. Lacy yesterday afternoon was honor guest at a tea given in Murphy Candler hall by the Y. W. C. A.

## RECEPTION FOR SHOLTZ SLATED BY ELKS HERE

Atlanta Elks are preparing an elaborate reception for Grand Exalted Ruler David Sholtz, former Governor of Florida, who will be a guest of the local lodge Thursday, January 28.

New Elks' lodges are being organized throughout the United States as the result of Sholtz' work, the local Elks were told yesterday in a bulletin issued by the Atlanta lodge.

"Right here in Georgia we have one new lodge and two that will soon be instituted," the bulletin read. "The prospects are that others will follow immediately."

All Elks in Atlanta have been urged to attend the meeting January 28.

## On the Air Today

INAUGURATION DAY—President Roosevelt's inauguration day ceremonies will be broadcast by both the NBC and CBS networks. From the White House and many other vantage points will come the elaborate coverage of the historic event.

On the Columbia network, prior to the broadcast of the ceremonies, there will be a "preview" program to tell the listening public in detail just how CBS is reporting the event for its listeners. These, under the direction of Paul White, Columbia's special events department head, will enable the radio audience to follow every detail of the ceremonies as well as every move of the President. WGST will carry the various broadcasts, and for the correct times consult today's radio schedules in The Constitution.

BURNS AND ALLEN—George Burns and Gracie Allen, having become more acclimated to the California sunshine and the whirligig of the movie capital, will launch a program to be heard over WGST at 7:30 o'clock tonight, even earlier than they have broadcast in the past.

Incidentally, when George and Gracie switch to a new sponsor in Atlanta, they will be the first of being the only comedy team on the air to broadcast consecutively, without interruption, for more than five years.

THE GANG BUSTERS—The nefarious underworld activities of Wilbur Underhill, called the "Tri-State" racketeer, will be the subject of the "Gang Busters" program heard over WGST at 9 o'clock tonight.

The drama will trace the career of this desperado from his boyhood days in Joplin, Mo., where he was constantly apprehended for petty larceny. While still a youth he earned the so-called "reputation of Terror" because of his connection with crimes in Missouri, Oklahoma and Kansas.

The dramatization cast will include Alice Hamilton, Erik Fred, Fred Lewis and Edmund MacDonald.

'ROUND RADIO ROW—Jessica Dragonetti will be heard on the "Beauty Box Theater" tonight due to continued illness, Lanny Ross and Ruby Mercer will pinch-hit for her. Al Lyman and band will play at the President's ball in New York on January 20. A network wire will pick up the affair. . . . Shep Fields, in collaboration with Clay Boland and Mike Joffe, has written a new song called "A Darn Good Tune". . . . Benjy Fields has canceled his CBS sustaining program in order to accept better theatrical offers. . . . Myrt and Marge may shortly transfer their activities to the west coast, where they plan on injecting Vinton Haworth motion picture actor into the script.

Phil Dues' baritone voice will be heard in a new series of recordings for April release.

## ATLANTANS INITIATED BY LEGAL FRATERNITY

Seven Atlantans were among 10 initiates of the Alexander H. Stephens (Chi) chapter of Sigma Nu Phi, national legal fraternity, to be taken in the Atlanta Law school recently.

They included John Henry Shultz Jr., Ernest Shaw, J. H. Watson Jr., Lester Cecil Turner, George E. Tompkins, Charles H. Cannon and Raymond Gorton, all of Atlanta, and Charles Dye, Eastman; Triam Nader, Brooklyn, N. Y., and E. M. Hiers, Palo.

Following the initiation a business meeting was held at which J. H. Bullard was named marshal of the local chapter. New officers named were M. E. Sullivan, chancellor; N. Martin, secretary; first vice chancellor; Joseph W. Love, second vice chancellor; Benjamin W. Brannen, master of robes, and Walter L. Brophy, treasurer.

Thieves entered a soft drink stand at 102 Davis street early yesterday morning and escaped with a quantity of cigars, cigarettes and an undetermined amount of cash from a music machine, police reported yesterday.

Thieves also removed a door from a chemical laboratory on Stephens street but did not enter, and burglars made an unsuccessful attempt to tunnel into a store at 614 McDaniel street, police said.

## NEGRO GIRL FORGER PROVES PROBLEM

Age Bars Federal Action and State Has No Institution for Such Cases.

Fulton county juvenile authorities and federal probation officers were worried yesterday over what disposition could be made of a case against a 14-year-old negro girl, who is charged with rifling letters, forging and cashing checks.

Lillian Strong, of a Myrtle street address, has no federal charge against her, even though she did open United States mail, for she is under 16, theft of the letters and check forgeries being considered a delinquency, not a crime.

The girl was arraigned before Judge Garland Watkins, of the Fulton juvenile court, but he did not put her on probation, usual expedient in such cases, as he considered it too serious a crime. The county has no institution to accommodate criminal negro girls and neither has the federal government.

Authorities are now considering taking out a federal indictment against the girl and having her transferred to a state in which provisions are made for the housing of negro girl delinquents.

Judge Watkins said the negro had visited a jewelry store, bought a \$40 wrist watch and forged and cashed a \$70 check. Checks were also cashed for \$54 and \$49 at two merchandising shops, he added.

"A woman told me forging checks and cashing them was the easiest way to get money," was the girl's only defense.

## DEMOCRATIC BOLTERS ARE URGED BY FARLEY TO 'COME BACK HOME'

'We Have No Enemies To Punish,' He Says in Plea for Solidarity.

WASHINGTON, Jan. 19.—(UP)—Democratic National Committee Chairman James A. Farley invited party bolters to "come back home" tonight in a radio speech calling on all "real Americans" for intelligent support of President Roosevelt's second administration.

He described the President's re-election victory as "too tremendous to justify any bitterness on our divided ward who sought to turn us back to black reaction." He promised the New Deal will "go ahead with charity for all and with malice toward none."

In holding out the olive branch to Alfred E. Smith, John W. Davis and other "Jeffersonian Democrats," who campaigned against Mr. Roosevelt's re-election, Farley said:

"We have no enemies to punish, no enemies to punish, no grievances to redress."

"There is room in the old homestead of Americanism for any of the wanderers of the night who wish to come back home."

Farley addressed a dinner of the electoral college committee, Mr. Roosevelt, he said, enters his second term with a mandate from the people to finish the job that he began four years ago. He said the "answer is that there will be no divided columns."

He said the November 3 election victory was "not the mere triumph of the Democratic party; it was a victory of democracy and American institutions regardless of party."

No Divided Columns.

Warning that "our enemies confidently count upon the enormity of our majority to sow the seeds of dissension within our ranks and hope to restore government to privilege by marching to future victory through our divided columns," Farley said the "answer is that there will be no divided columns."

He said the November 3 election victory was "not the mere triumph of the Democratic party; it was a victory of democracy and American institutions regardless of party."

Millions of Liberals and Progressives previously unassociated with the Democratic party played a great part in the victory, he said, "and if we prove worthy of the confidence reposed in us, they will continue to march shoulder to shoulder with us to future victory."

## Bill Would Prohibit Automobile Radios

BOISE, Idaho, Jan. 19.—(AP)—A bill to outlaw automobile radios in Idaho was introduced in the legislature today by Senator Ralph E. Whitten, veteran Republican lawmaker and electrical engineer, who would make it a misdemeanor to install or operate a radio in any motor vehicle with one exception—police cars.

Under the bill, any peace officer would be empowered to seize a radio coming within the prohibition, and would be required to deliver it to the probate court, who would in turn be authorized to order the sheriff to destroy it.

## HALF MILLION PEOPLE JAM NATION'S CAPITAL

velt, in keeping with the dictates of precedent, will deliver his inaugural address which promises to outline much of his final recovery plans. It will be the first time a second inaugural address has been heard from a President since Woodrow Wilson's administration beginning in 1917.

Thereafter the chief executive will return to the special presidential residence standing in front of the White House on Pennsylvania avenue to review the mammoth military and civilian parade that has formed the most colorful feature of inauguration since the days of Washington.

At the capital today, sound engineers tuned up the public address system which will carry the President's words tomorrow to the throng gathered there. Their work done, they departed, and a senate page dived out onto the deserted platform.

He stood on tiptoe at the microphone and uttered a weighty: "My friends," terrified to find the power still on and his piping voice magnified to a roar that reverberated across the plaza and beyond.

As an intimation of the times, the reviewing stand has been built as a replica of "The Hermitage," home of Andrew Jackson at Nashville, whose liberal policies as President are being recalled.

At the present White House occupant, Vice President Garner, breaking another precedent, will be administering the oath on the capitol plaza just previous to Roosevelt's induction. Heretofore the vice president has held a separate ceremony of his own in the senate chamber, but precedent-breaking seems to be the order of the day under the New Deal administration and those in charge thought it more fitting to have the No. 1 and No. 2 men of the station square in at the same setting.

Senator Joseph T. Robinson, of Arkansas, majority leader of the upper chamber, will read the solemn oath to defend and uphold the constitution to Mr. Garner.

Spread out in a great fan before them upwards of 50,000 persons seem certain to invest every inch of space available for the ceremony.

Special seats have been reserved for dignitaries and others fortunate enough to secure tickets, but the majority of the crowd will be counted upon to overrun the open spaces intervening at parkways between the capitol structure and supreme court directly beyond.

Both from the standpoint of the crowds and the enthusiasm the inauguration promises to be the biggest in the history of the nation.

Four years ago when Mr. Roosevelt first assumed the helm of government the country was in the throes of the worst depression in history. Then all of the banks were closed or closing. Depleted resources and diminishing pay rolls, plus the element of fear and uncertainty of the future, caused many people to stay at home, although the Democrats were rejoicing over their first national victory in 16 years.

Today everything is different. The country is well past the uncertain stage of national recovery. Business is advanced almost to the point of normal in practically every line; the people have more money on hand, and they are spending it in trips to Washington as a manifestation of exuberance over New Deal success. They are converging on Washington in numbers never before seen.

30 Governors on Hand.

Last night they attended the pre-inaugural ball given by the Georgia Society at the Raleigh hotel.

## Garner Will Take Office Today For Second Term as Vice President

Texas's Parliamentary Experience Often Has Helped the Administration Over Rough Spots; Long Record Is Cited.

WASHINGTON, Jan. 19.—(UP)—John Nance Garner, the canny Texas politician who in his quiet way has killed the popular belief that the nation's No. 2 executive in the "forgotten man" of any administration, tomorrow takes office for a second four-year term as vice president.

Garner enters his second term in public for the first time in the President's history. In the past the president took his oath in the senate chamber, over which he presides, at the same time that new members took office. But under the Norris "lame duck" amendment the new senate took office before the inauguration, and there will be no ceremony to perform.

Garner's parliamentary experience often has helped the administration over rough spots in the "greatest deliberative body in the world." Unlike the house, where gag rules can be invoked to break legislative jams, the senate never can be gagged except by its own consent. This is what some times leads to filibusters.

Garner was born November 22, 1868, in Red River county, Texas. While he was still young his family moved to Uvalde, where he has lived ever since. He started his career as a lawyer in 1890, but politics has been his chief work ever since 1898.

During the years since then he has acquired an interest in several banks in the Uvalde region, and he owns a cattle ranch 60 miles south of Uvalde.

## Inaugural Sidelights

WASHINGTON, Jan. 19.—(AP)—Three thousand policemen, marines and secret service agents will guard the President on his triumphal procession from the White House to the capitol and back again.

The President's order for a "simple" ceremony took one worry off the firemen's shoulders. It means no bunting, wreaths, paper mache eagles or flags on the wooden stands. A copy of the President's seal on his stand will be fireproof.

Wise spectators are testing pillows. Architect David Lynn says there'll be no upholstery on the 11,000 rough board seats of the grand stands.

Congressmen won't be clinging to capitol pillars or hanging from balconies to see the inauguration this year. For the first time, says Kenneth Romney, house sergeant-at-arms, there will be a seat for each of them on the President's platform.

For the first time in recent years, the entire corps of West Point cadets, Annapolis midshipmen and coast guard cadets will march in the parade. At the President's request, the 4,000 first time police court will skip "do the town."

Mississippians gave a banquet last night to console their lieutenant governor on the loss of a donkey. He bet the lieutenant governor of South Carolina his state would pile up the greater Democratic victory. The winner gave the donkey to the Postmaster General Farley as a party mascot.

Some have fun; some don't. Persons arrested today will have to spend Wednesday in jail waiting for the judges to hear their pleas. For the first time, the police court will skip a week-day session. The four judges are going to inauguration—and all the policemen are needed on the crowded inauguration scenes.

A squad of cars bristling with mounted machine guns dashed up the Pennsylvania avenue parade ground. Worried citizens learned they carried soldiers and secret service men—practicing.

The President and Chief Justice Hughes will be put "on the spot" at the ceremonies. Newsreel cameramen, worried lest they might "lose" the two chief figures in shooting the scene taped squares on the rostrum—one marked for the President, the other marked for the chief justice.

Brotherhoods Adjourn Without Accord on Pay Demands.

CHICAGO, Jan. 19.—(AP)—Unable to reach an accord, representatives of the "big five" railroad brotherhoods adjourned today without having reconciled their differences on proposed wage increase demands.

The conductors and engineers have stressed demands for a 15 per cent wage boost for the 300,000 railroaders the five groups represent.

T. C. Cashen, of Buffalo, N. Y., disclosed that the railmen's unit will be holding out for a plan combining flat rate and percentage increases.

Alexander F. Whitney, of Cleveland, president of the Trainmen's Brotherhood, left for Washington to attend the inauguration. He indicated his group was aligned with those who favor a dollar a day flat wage increase.

It effected, the 15 per cent increase would mean the railroad industry at least \$80,000,000 annually at its 1936 rate of operations. The "big five" transportation groups represent about 30 per cent of the aggregate railroad pay roll.

2 LAWYERS NAMED IN OCULIST INQUIRY

MILWAUKEE, Jan. 19.—(AP)—Prosecution witnesses contributed new leads today to the federal government's effort to link two Milwaukee attorneys with an alleged syndicate of fake oculists.

The attorneys, Frank Mackett Jr. and William Hancor, and eight others were indicted on mail fraud charges. The lawyers and Sam Bernstein, New Orleans, pleaded innocent.

Mackett and Hancor, the government charges, were cashiers for the nationwide ring, cashing checks obtained from eye trouble sufferers and collecting a 10 per cent commission.

John M. Gray, Dallas, Texas, whose case was dismissed and who is testifying for the government, said he sent a check to Mackett, who cashed it and retained the customary 10 per cent.

He said he telephoned Mackett twice from Durham, N. C., on August 29, 1935, to ask Mackett whether he had received the check and whether "everything was all right."

Gray is under a 43-year sentence in Texas on state fraud charges.

## DAVIES AND RICH WIFE PLUNGE INTO NIGHT LIFE ON ARRIVAL IN MOSCOW

Ambassador Will Entertain  
Entire American Colony  
This Evening.

MOSCOW, Jan. 19.—(UP)—Ambassador Joseph E. Davies and his wife, Mrs. Davies, plunged into Moscow night life tonight, eight hours after their arrival, entertaining the entire United States embassy staff at a reception in the palatial Stasov house. Tomorrow evening they will be hosts to the entire American colony.

The ambassador and Mrs. Davies, with their 21-year-old daughter, Ellen, a nephew, three secretaries and 50 pieces of baggage, arrived here early today after an overnight journey from Nizhny Novgorod, Soviet-Polish border point.

They were met there by Loy Henderson, chargé d'affaires, and virtually all the American correspondents in Moscow.

**Silk-Hatted Staff.**  
Frock-coated and silk-hatted, the entire staff of the embassy awaited the train, 15 minutes late, in sub-zero weather, and were presented to the ambassador by Vladimir Borkov, chef de protocol of the foreign office, welcomed Davies on behalf of the government.

Davies, a cane over his arm, faced a battery of Soviet photographers and then was led, with his party, to waiting automobiles. Through cleared streets they dashed to the Spasskaya house, the ambassador's residence, a palace built by a Russian merchant prince and confiscated during the revolution.

On arrival, Mrs. Davies, who has a 66-room apartment in Manhattan, was dressed simply, and apparently inexpensively, in a brown outfit with a feathered hat to match.

**"Proletariat, Unite!"**  
When the Davies arrived in Nizhny Novgorod last night they were welcomed into the customs room where the ambassador saw in gilded letters in five languages:

"Proletariat of the world, unite!"  
The representative of American capitalism looked at the slogan interestingly.

All he said for quotation was:  
"Russia is one of the most interesting places in the world today. I am very glad to be here and am looking forward to my stay with the keenest interest."

## NORTH SEA BLIZZARD ENDANGERS 2 VESSELS

OSLO, Jan. 19.—(AP)—Two vessels drifted helplessly in the North Sea tonight as a gale-driven blizzard whirled up heavy seas and left damage and isolation in Norway and Denmark.

The crew of the sinking Norwegian steamer Trym fought desperately to keep their vessel afloat 50 miles off the Norwegian coast. Rescue vessels were unable to aid because of the storm.

The Russian steamer Ilmen, in a distress signal, reported to Llyods in London asked that a tug be sent to her aid in the North Sea. She was reported to have been wrecked. The Ilmen, a 2,288-ton vessel, reported she was unable to keep any other direction.

ACIDITY**

Headaches, nausea, indigestion, pain and some stomach upset are often signs that baby is suffering with acidity—a condition that should be corrected promptly. Too much acid is not only likely to irritate the gastro-intestinal tract, but acidity lowers baby's natural resistance to withstand the attack of disease germs, especially colds. Thousands of mothers recommend TETHEA for acidity because it is a laxative and carminative with anti-acid properties. Quickly and effectively the alkaline reaction of this remarkably different kind of laxative tends to counteract baby's acid condition. TETHEA is sold by all druggists and costs 30c the box of 12 pleasant tasting powders.

## 3 Governors at Reception Given by Mr., Mrs. Robert

## Great Reception Given Georgians On Arrival in City of Washington

Two Special Trains Carry Happy Crowd of More Than  
Thousand From This State for  
Inaugural Ceremonies.

By GLADSTONE WILLIAMS.  
WASHINGTON, Jan. 19.—(AP)—Georgia's inaugural party, numbering more than 1,000, arrived in Washington early this afternoon on two sections of the Seaboard Airline. Leaving their trains in a drizzling rain, the large party, headed by the state's new governor, E. D. Rivers, were photographed and met by private inaugural motor cars in which they were driven to their hotels.

An official welcoming party, consisting of a committee of Georgians residing in the District of Columbia and the congressional delegation, composed of Senator Walter F. George and Senator Richard B. Russell Jr., together with all 10 members of the incoming visitors feel at home for this, the largest inaugural celebration to be held in the nation's capital in many years.

Governor Rivers was in an especially gay mood upon arrival and expressed his pride at being honored to head the "biggest" Georgia crowd ever to come here for the inauguration of a Democratic President.

"Tomorrow will surely be a glorious day for all Georgia friends of Franklin Delano Roosevelt," he said, "and we all are most happy to personally welcome him and to celebrate his second inaugural."

The Governor endeavored himself to every guest on the train by starting in the hindmost Pullman and shaking hands with every one from there to the baggage coach ahead.

Because of the inability of Washington hotels to accommodate the unprecedented crowds flocking from all sections of the country the Georgia special unloaded their merry guests on the outskirts of the city. Here many of the visitors will make their homes during their two-day stay.

Both sections of the special arrived more than an hour late—nearly mid-afternoon—and as a result, the visiting Georgians hurried to the Mayflower hotel for a reception and tea tendered them by Mr. and Mrs. "Chip" Robert, of Atlanta, the latter secretary of the Democratic national committee and a former assistant secretary of the treasury.

**Dinner Party.**  
Following the Robert reception, Senator and Mrs. Walter F. George entertained at a dinner party for Governor Rivers, Major Clark Howell, general manager of The Constitution, and other immediate members of the Governor's staff.

Tonight the Georgia society of Washington entertained the visitors at a brilliant dance given in the ballroom of the Raleigh hotel, one of Washington's leading downtown hostesseries. Representative B. Frank Wheeler, of Gainesville, president of the society, with other members of the congressional delegation, were on hand early to welcome the guests.

The dance did not break up until an early hour Wednesday.

Through the courtesy of Major Howell and The Constitution staff, guests on both sections of the special were entertained en route to Washington with refreshments on two improvised club cars. Colored posters especially engaged for the occasion served soft drinks for the thirsty and light entertainment for all train guests.

While discommending a number of the ladies, with their new frocks, the slow, misty rain which greeted the party, failed to dampen the Roosevelt order of all the Georgian visitors. They all accepted the drizzly downpour in good spirits and prayed that the weatherman would let the elements under better control on the morrow.

Elaborate plans have been made for participation in the inaugural parade tomorrow for the Governor, his staff and the Tech High school band.

**Father of Man Dies Without  
Knowing of Tragedy;  
Double Funeral Set.**

MONTGOMERY, Ala., Jan. 19.—(AP)—Authorities said tonight they had made no progress in apprehending the slayer who hacked a couple to death Sunday at a wooded spot behind Oakwood cemetery.

Chief of Detectives Paul Rapoport said no definite leads had been uncovered in the search for the assailant who killed Dora Bullard, 22, and Leon K. Nichols, 26, of the city, in the twisting room of a textile mill here. Their bodies were found by police yesterday, the throats cut by "a jealous suitor or a sex-mad degenerate," according to Coroner M. B. Kirkpatrick, who said the couple apparently had been surprised at a secluded meeting place behind the cemetery.

Nichols and his father, Henry M. Nichols, 63, will be buried tomorrow afternoon at a double funeral. The father died last night from a heart ailment without learning of his son's death.

Funeral services for the girl will be held tomorrow morning, with all three to be buried in Memorial cemetery.

Scandal, He Tells New  
York Jury.**

NEW YORK, Jan. 19.—(AP)—Alfred E. Smith Jr., son of the former New York Governor, testified today in the extortion trial of Max D. Krone and A. Harry Ross that it cost him \$8,500 to get "general releases" from the accused blackmailers to avoid being smeared with scandal.

The indictment specifically accused Krone and Ross of extorting only \$1,500—but that, Smith said as his estranged wife sat in the courtroom, was only part of the story.

Smith shared with Catherine Parrish, the woman in the case, the spotlight as star prosecution witness.

Miss Pavlek, described by the state as the nation's first woman shakedown, testified she got only \$1,000 of the \$8,500 Smith said he had to pay out.

Furthermore, the blonde young woman, identified by a state witness, was not the former clerical worker for the Boy Scouts of America, repudiated a written statement attributed to her to the effect that Smith had "attacked" her.

The automobile of Alderman G. Dan Bridges, chairman of city council's public safety committee, was caught yesterday in the chain of law enforcement now being forged at police headquarters.

According to the report of Motorcycle Patrolman R. M. Ector, the car was parked on the sidewalk in front of the police station. So the officer promptly placed a "Wanted" tag on the vehicle, charging the owner with parking it illegally.

## DOROUGH HEADS STAFF OF BAPTIST HOSPITAL

New President Named at  
Annual Meeting To Succeed Dr. Aven.

Dr. W. S. Dorough was selected president of the medical and surgical staff at Georgia Baptist hospital last night at the annual staff banquet and business meeting. He succeeds Dr. C. C. Aven.

A total of 6,768 patients were treated at the hospital in 1936 and 95.5 per cent of these were cured, it was revealed in the reports of W. D. Barker, superintendent of the hospital, and Dr. Stephen T. Brown, secretary of the staff, revealed. During the year 4,361 operations were performed and 724 babies were born at Georgia Baptist, they said.

Pointing to the annual increase in the number of patients treated, Dr. Barker urged the addition of 100 new rooms to care for the increase. He reported more than 1,000 have been treated at the cancer clinic since it was opened in 1934.

Dean Raimundo de Oves, rector of the Pro-Cathedral of St. Philip, principal speaker at the banquet, stressed the importance of close cooperation between physicians and ministers, describing both as "father-confessors" of the laymen. He recounted many examples of scientific investigation of "medicine men superstitions" that resulted in the discovery of new well-known medical remedies.

Appointment of Miss Lucy Harris, of the Methodist hospital at Fort Worth, Texas, as superintendent of nurses at the hospital was announced by Barker. She succeeds Miss Nancy Jenkins, resigned, and will assume her new duties February 1.

Other officers of the staff selected are Dr. O. S. Cofer, first vice president; Dr. Stephen T. Brown, second vice president; Dr. Thomas P. Goodwyn, secretary.

Among prominent guests in attendance were Dr. W. H. Major, chairman of the Georgia Baptist Association hospital commission; Dr. James W. Merritt, secretary-treasurer of the commission; Dr. Ryland Knight, pastor of the Second-Ponce de Leon Baptist church; Dr. V. L. Bray, chaplain of the United States federal penitentiary.

Advances in the wholesale price of popular cigarettes were ordered in the Atlanta market yesterday and will reach the retailer in his purchases today.

The new price is \$8.25 a thousand, less the usual trade discount, an advance of 15 cents a thousand. This would make approximately one-third of a cent advance per pack to the retailer.

"Whether the advance will be passed on to the consumer cannot be determined as yet," said one Atlanta wholesaler yesterday.

The action was taken by Liggett & Myers Company, R. J. Reynolds Company and P. Lorillard Company. The American Tobacco Company, the other member of the "big four," was reported in New York to be considering a similar move.

## BRITAIN WILL OPPOSE DOMINATION OF SPAIN

Eden Declares England Is  
Watching Developments  
in Morocco.

LONDON, Jan. 19.—(UP)—Foreign Secretary Anthony Eden today warned European nations that Great Britain would oppose any foreign attempt to dominate Spain, as would 24,000,000 Spaniards.

The tall, lanky foreign minister, addressing the first session of common since Christmas, said Britain was "carefully watching" developments in Morocco, where large German forces were reported to have landed.

Eden forecast that 1937 would be a critical year for world peace, but added it would also be a year of international opportunities. Danger that the Spanish civil war would spread, he said, has diminished, but has not been eliminated.

**Gains for Peace.**  
Eden did not deny the threat of a European war, but said:  
"Every month gained for peace is a reckoning on the right side."

Apparently referring to reports that Russia and France, on one side, or Germany and Italy, on the other, might seek to dominate Spain by aiding either the Loyalists or Rightists to win, he said:

"If any member of parliament believes that as an outcome of the civil war any single foreign power or pair of powers is going to dominate Spain and rule its life and direct its foreign policy, he is mistaken."

Then, forcefully:  
"Almost the only thing that can unite Spain is common hatred of the foreigners."

Eden then attacked the nations who have been increasing bloodshed in Spain, saying:

"Intervention in Spain is not only bad for humanity, it is also bad policy."

He said that German and Italian replies to Britain's suggestion that the nations ban departure of "volunteers" to Spain were expected in London within 48 hours.

Britain's own interest is to see that the conflict does not spread beyond the boundaries of Spain and that the political independence and territorial integrity of Spain be preserved, the minister explained.

Eden said the British attention had been directed particularly to activity of agents recruiting for Spanish armies. He divulged that prolonged negotiations for the exchange of Spanish prisoners so far had failed.

## TWO MEN SURRENDER IN OPERA HOUSE DEATH

NEW YORK, Jan. 19.—(AP)—Two men with whom the authorities wanted to talk about the strangest Manhattan melodrama in many a day—the opera house killing of Frank Cicero—walked into a police station today.

Listed by authorities as Gabriel Klirain and Harry, they almost instantly offered a disclaimer, through counsel, of guilt in the stabbing of Cicero.

They had been sought, along with Klair's brother, Harry, since the quick, vicious ballroom brawl that left Cicero dead.

## France Fears Pun in Magazine May Rupture Relations With Iran

Persian Diplomat Indignantly Protests Caption Which  
Links Shah to a Cat; Paris Orders Envoy To Try  
and Restore Goodwill at Teheran.

PARIS, Jan. 19.—(AP)—The French government, apprehensive lest a French magazine's joke lead Iran to break off commercial and diplomatic relations with France, instructed her minister to Iran tonight to try to soothe the Shah's ruffled feelings.

The order to Jean Polin, French minister to Teheran, capital of Iran (Persia), followed upon a declaration by an official of the Iran legation here that hundreds of that country's students would be taken out of French schools unless France provided "satisfaction."

A pun in the French magazine L'Europe Nouvelle caused the trouble. Some time ago the magazine, Revue de Paris, in an economic survey of Iran, declared the Shah, Iran's ruler.

Literally the phrase, with the word "chat," means "there's nothing in that to whip a cat," but the magazine made it read "there's nothing in that to whip-a shah."

**'Queenie' Is Made Official Mascot;  
Farley Promptly Gives Patronage**

Even as Homefolks Cast Aspersions on Ancestry of Noble  
Beast, She Bows and Shakes Hands With Post-  
master General in Hotel Lobby.

WASHINGTON, Jan. 19.—(AP)—Queenie, a sleek, little dark brown donkey from Vicksburg, Miss., who worked her way up from precinct campaigns, became official mascot today of the Democratic party.

Led into the lobby of a downtown hotel, crowded with inaugural week celebrities, Queenie was presented to Postmaster General James A. Farley, chairman of the national Democratic committee, by Lieutenant Governor J. E. Harter, of South Carolina, who won her on an election wager from Lieutenant Governor J. B. Snider, of Mississippi. Snider misguessed that Mississippi would poll more Democrat votes than South Carolina.

"May this donkey forever symbolize a united Democratic party," said Farley.

Farley said he hoped the occasion would be an incentive to the Democrats of Maine and Vermont to vie as to which will poll the most Democratic votes in the next presidential election.

Queenie said nothing, but at the command of her original owner, J. M. Buchanan, of Vicksburg, she nodded, bowed and shook hands with the party chieftain.

Before and after the presentation an orchestra struck up "Happy Days Are Here Again."

Queenie appeared unmoved by the music, but showed a keen interest in sugar lumps which Farley fed her.

After the ceremony she was led away to a home on the near-by Maryland farm of Smith W. Oudrum, fourth assistant postmaster general.

**ASPERSIONS ARE CAST  
ON QUEENIE'S ANCESTRY**

VICKSBURG, Miss., Jan. 19.—(AP)—Somebody rattled the skeleton in the family closet of Queenie, the Democratic party's new official mascot, and set the gossip's tongues wagging today.

"Queenie ain't no donkey, she's a pony mule," the negro attendant said. "Her mother was a Shetland pony and her father a donkey."

With doubt thus cast on Queenie's ancestry, the question was raised whether she could properly be the Democratic symbol.

The stir developed while Queenie, all diked out as befits an official party mascot, was in Washington for the inaugural ceremonies tomorrow.

**LOW RENTAL IS FIXED  
FOR HOUSING PROJECT**

WASHINGTON, Jan. 19.—(AP)—Public Works Administrator Harold L. Ickes fixed rents today for the William D. Patterson courts, low-rent housing project at Montgomery, Ala., at \$1 a room a week. It is the lowest figure announced for such a housing project.

Homes in the project will rent for an average of \$3.10 a week. The two-room houses will rent for \$2 a week and the five-room houses will bring \$4.50 a week.

## HYPNOTIZED YOUTH ATTEMPTS SUICIDE

L. S. U. Freshman Is Found  
Seriously Wounded on  
River Levee.

BATON ROUGE, Jan. 19.—(AP)—Robert Weston Faulstich, 18, of Warrenton, N. Y., Louisiana State University freshman, was found seriously wounded tonight on a Mississippi river levee bordering the university campus.

Dr. C. A. Lorio, university physician, said the youth told him he tried to commit suicide by shooting himself with a .22-caliber rifle because he was despondent.

The physician said the rifle bullet penetrated the student's body, perforating a lung. He predicted recovery barring unforeseen developments.

Faulstich gave an interview to the L. S. U. student paper, "The Reveille," shortly before he was found shot telling of having been "hypnotized" by another student in a "scientific experiment," but Dr. Lorio said any such hypothesis could not have been connected with the asserted suicide attempt.

Authorities dropped an investigation after receiving Dr. Lorio's report.

# Tech Favored Tonight; 'I'm at Peak of My Game'—Grant

WASHINGTON, D. C., Jan. 19.—Tomorrow at high noon, President Franklin D. Roosevelt will take the oath of office from Justice Hughes.

He will speak to the nation then, his voice going on the air and his words being sent out on a network of wires which literally cover the nation, from coast to coast and from border to border.

He will move then, to the balcony which is on a reproduction of the home of Andrew Jackson, the lean old fighter who took the pirates and beat the English at New Orleans; the grim old man who floated his men down rivers on rafts and beat the Indians; the sincere and implacable fighter who became President of the United States.

There was something of hickory in his body. And some of the strength and resiliency of hickory in his mind.

And it is very fitting he should have this reproduction of his home here on the capital lawn tomorrow.

Because it was Old Hickory who remembered the forgotten man, who made his government a government for the whole people.

And there is something of hickory in Franklin D. Roosevelt, who took the nation in the greatest crisis in its history and brought it through. There was much need of hickory in that job.

I have seen that Hermitage in which Old Hickory and his wife Rachel lived near Nashville, Tenn. I have seen his old books in which he made his entries about brandy and tobacco and race horses and the accounts of the plantation.

And there is in the old barn the carriage in which he rode across the muddy roads and forded the swift rivers to the inauguration at Washington. It required 30 days of travel then.

You may turn to the history books and read what happened. His inauguration ceremonies were as simple as are those of the man who takes office tomorrow and who, in so many ways, resembles Andrew Jackson.

The day Old Hickory was inaugurated his admirers were all there. The men who had fought Indians with him were there. They had starved and waded swamps and fought with him to beat the Indians. The men who had been with him on the march from Tennessee to New Orleans were there. They had gone by steamboat and on foot to beat the English.

And when Old Hickory was inaugurated they stormed the White House. There was many a muddy boot there that day and much spitting of tobacco juice. The White House was damaged somewhat that day. But they had refreshments in the White House with Old Hickory and they loved him. So what did a little damage mean?

## THE FIRST INAUGURATION.

The story of the first inauguration is a story worth telling. The young country, formed of the 13 colonies which had defied the British and won independence by revolution, was starting an experiment which was attracting the attention of the entire world.

Russia was, for instance, very suspicious of us because of our revolutionary character, which may give one an idea of how times change.

But the chief problem, when it came time to inaugurate George Washington as President of the United States, there was more than a little concern.

It was April 30, 1789, and congress was having a bad case of the jitters. You may read about it in the old books and diaries.

They knew that European people and governments were watching and prepared to laugh at this infant republic. There was no precedent anywhere for such a government. There was much known about how to put a king on his throne or how to put a prince in charge of a realm. But a President was new.

Vice President John Adams had learned already how little and how much the office of vice president meant.

As president of the senate he had to be a sort of presiding officer, of master of ceremonies. And in conference with the senate, the old books tell, that Adams said:

"Gentlemen, I wish for the direction of the senate. The President will, I suppose, address the congress. How shall I behave? How shall we receive it? Shall it be standing or sitting?"

They all seemed to agree that it should be either standing or sitting, but nobody knew which. Adams therefore continued to lament.

"Gentlemen," he said, "I do not know whether the framers of the constitution had in view the two kings of Sparta or the two consuls of Rome when they formed it; one to have all the power while he held it, and the other to be nothing. Gentlemen, I feel great difficulty how to act. I am vice president, but I am president to the senate. When the President comes into the senate, what shall I be? I cannot be President then. No, gentlemen, I cannot, I cannot. I wish, gentlemen, to think what I shall be."

Adams was almost ready to give up. Probably he would have, had he not been John Adams. John Adams never gave up.

The senators tried to help.

Elsworth (another senator, later chief justice) thumbed over the sheet constitution and turned it for some time. At length he rose and addressed the chair with the utmost gravity: "Mr. President, I have looked over the constitution (pause), and I find, sir, it is evident and clear. Sir, that wherever the senators are to be, there, sir, you must be at the head of them. But further, sir (here he looked agitated, as if some tremendous gulf had yawned before him), I shall not pretend to say."

That didn't help at all.

Meanwhile a messenger reported the house members were on the way over for the joint assemblage. They came in and sat down.

And then it was discovered the committee had forgot to go and escort Washington to the building. So they rushed out and did so.

Adams arose, with no introduction, and announced the oath would be administered.

Washington was nervous.

"This great man," writes an observer, "was agitated and embarrassed more than ever he was by the leveled cannon or pointed musket. He trembled, and several times could scarce make out to read, though it must be supposed he had often read it before."

That was the first one. Tomorrow there will be no nervousness. The nation has become a great nation. And somehow each crisis has produced the man for the job.

## CROWDS POUR IN.

The crowds are pouring in. A great city of parked Pullman cars has grown up in the yards. Hotels are jammed. The rates are high. Parking lot owners have jacked prices to \$1 for parking.

A nation is waiting for the words of the President, the greatest peacetime President the nation ever knew, and maybe its greatest.

## CLEMSON BEAT JACKETS TWICE LAST SEASON

Tech Will Be Seeking Fourth Straight Victory Against Tigers.

**By Jack Troy.**

Taking all things into consideration, it's better than an even wager that Clemson doesn't make it four straight over Georgia Tech in tonight's basketball game at the naval armory. The towering Techmen are prime favorites to win and partially erase those two cage defeats of last winter and that football loss of last fall.

Coach Joe Davis' Southern Conference Tigers defeated Tech twice last season in basketball. In other words, they made a clean sweep of the series. The game here, one of the season's thrillers, saw Tech downed by two points, 35 to 33.

There weren't so very many people who thought Jess Neely's football team could stand up to the Jackets. But they could and did, winning 13 to 12 at Grant field.

**ALL CLEMSON.**  
All in all, it has been all Clemson in so far as the rivalry with Tech in the past season was concerned.

But it would be a strange time that had no turning. And it would be something of an upset should Clemson beat Tech tonight in basketball.

And you may lay it to rest. The unbeaten Jackets are not in full stride as yet. But they have shown definite signs of being on the way.

Defense is plenty strong right now and the offense is coming along in great shape.

The Clemson Tigers have been sore in and out this season. They hold victories over Florida and Wake Forest and have lost to Duke, Florida, North Carolina State and Wake Forest.

Bill Brice, moderately tall but exceptionally high-jumping center of the Clemson team, is one of the players Tech must watch. He includes in his bag of basketball tricks a most unusual twist shot.

**CLEMSON LINEUP.**

Mainstays of the offense and defense are lettermen Ed Kitchens, guard, and Bobby Cheves, forward. Sophomores hold down the other two starting positions. They are Bob Miller and Jack Byrne, who play forward and guard, respectively.

Tiger reserves include Wister Jackson, a sophomore, and Newell Crawford, sharp-shooting junior. Both are expected to see service.

It is not at all certain what combination Coach Roy Mumford will send out at the start. One never knows. It may be that it will be the same five that looked so good against Vanderbilt in the first half.

In that case, the Jones boys, Ed and Ben, will start at forwards, with Bo Johnston, star of all games here, to date at center, and Junior Anderson and Buttz R. and Junior Anderson and Buttz R. and Junior Anderson and Buttz R.

On the other hand, Bill Jordan might be at a forward position and either Fletcher Sims of Whack Hyder might man one of the guard posts.

**WIDE CHOICE.**

There's really no telling. The choice of selection is not half bad.

Tech shoots for its fourth straight victory tonight. And, as said, it's better than an even bet that Clemson doesn't make it four straight over Tech.

Starting time, as ever, is 8 o'clock. And the best idea for one and all is to reach the naval armory early. With seating capacity and standing room limited as it is, it's a case of first come, best off.

**Georgia Plays Mercer, Clemson.**

ATHENS, Ga., Jan. 19.—The University of Georgia's basketball team, with three victories and two defeats behind them, scheduled a double game in anticipation of hard games with Mercer and Clemson this week end.

Coach Rex Enright foresees trouble in the Mercer game Friday night. In the seven games played by the Bears they have rolled up a total of 280 points to their opponents' 256. They also trounced the University of Chattanooga by a 22-point margin, while the Bulldogs split the two-game series with the Moccasins.

Against the 'Gators Saturday night the Enrightmen looked their flattest of the season. Inability to make the shots swish the nets was very evident and this is drawing considerable attention as the squad drills this week.

Friday night's victory came only after the Bulldogs had played to their limit.

All players are in good condition and morale is expected to be boosted considerably by Friday's victory. Bears come here. The freshman team will accompany the varsity to Clemson Saturday night.

**Hendrix Advances**

**In Orlando Event**

ORLANDO, Fla., Jan. 19.—(P)—Fading little opposition in young Dick Morris, of Winter Park, Arthur Hendrix, seeded No. 1 in the Florida open tennis tournament being played here, today advanced into quarter-finals.

Hendrix defeated Morris in straight sets, 6-3, 6-2. Tomorrow he will play C. W. Hickey, Orlando city champion, who went into the quarter-finals with a 6-0, 6-0 victory over Clyde Higginbotham, of Orlando.

Marquon, Lakeland, and Bob Decker, Miami, also went into this bracket, the former defeating Glen Wilson, Orlando, 6-1, 6-3, and the latter winning from Jack Staton, Orlando, 6-3, 8-6.

**Joe Cronin Admits**

**He'll Be a Father**

BOSTON, Jan. 19.—(UP)—Manager Joe Cronin, of the Boston Red Sox, blushing admitted today he will become a daddy for the first time "about mid-season."

Mrs. Cronin, the former Mildred Robertson, is a niece of Clark Griffith, owner of the Washington Senators. The Cronins were married three years ago when Joe was still manager of the Senators.

"I hope it's a boy," Joe commented. "We could use him as a pinch-hitter."

**Leonard To Have**

**Appendix Removed**

An appendectomy is what the doctor has ordered for Emil (Dutch) Leonard.

X-ray plates yesterday revealed Leonard has a sort of bound appendix that might flare up at any time. So the examining physician recommended an operation and Leonard readily agreed.

Leonard will return to his home in Auburn, Ill., get his affairs in shape and return here within a few days. He then will submit to an operation. All going well, he will be fit and ready for spring training on March 11.

"I hope it's a boy," Joe commented. "We could use him as a pinch-hitter."

**Edwards Beaten.**

ORLANDO, Fla., Jan. 19.—(P)—Charles E. Edwards, Berwyn, Ill., defending champion, was eliminated from the national water shuffleboard tournament here today by L. L. Bessley, of Traverse City, Mich., and St. Petersburg.

## Puppy Stakes Winners in Southern Field Trials

Associated Press Photo.

Cobbler, right, a large black and white pointer owned and handled by Sigo Farkas, of Albany, took first place in the puppy stakes of the southern field trials at Albany. Winners in this class were, left to right, Whippoorwill, shown with Betty Hempstead, of Montgomery, Ala.; Springwood

Shot, shown with Thomas C. Chubb, of Thomasville (Whippoorwill and Springwood Shot tied for third place); Ichuaway Mike, shown with Trammell Scott, of Atlanta, second, and Cobbler with Farkas. Foolproof, a pointer, won the all-age championship yesterday.

## Hagen Needs Best Form Friday

George Hagen is polishing that Indian death lock for a shot at the title like legs of Milo Steinborn Friday night at the Atlanta theater.

He knows he must execute his pet hold in top form if he is to subdue the strongest wrestler in the world and one of the greatest in Frank Spear's headliner.

The only time Steinborn's legs ever gave way was during one of his strong man exhibitions several years ago. Milo served as the pillar for a platform over which a truck was to be driven. The truck missed the platform and ran over one of Steinborn's legs. It was broken in several places.

But a broken leg was not enough to discourage this grand old warrior, who seems to improve with age. He is in wonderful condition now, the best in five years, he says, and thinks, after seeing Hagen beat Karl Davis last week, that he can topple the ex-marine.

Karl Davis, unable to gain a third match with Hagen, insisted on being placed on the same program with the ex-marine, for some reason or other, and meets Billy Bantush in the semi-final. Davis' presence means fireworks.

Roland Kirchmeyer, member of the United States Olympic wrestling team in 1930, will have need of all his acrobatic skills in the day except Hagen, who is the one who will win.

Hans Steinke, the giant German, who for years has been among the first 10 heavyweights in the world, and who holds victories over more champions than any wrestler of the day except Ed Lewis, who is about retired.

Tickets are on sale at Marshall & Reynolds.

**BIBL TO HEAR TEXAS' OFFER**

AUSTIN, Texas, Jan. 19.—(P)—The eyes of Texas were on Coach Dana N. Bible tonight, with a deal on the fire that may take the crack football maverick away from Nebraska with a huge salary.

The bold, ruddy-cheeked coach of the Cornhuskers, parried reporters' questions when he arrived today for a conference with University of Texas officials tomorrow.

With a smile and a Texas drawl he retorted irrelevantly: "You can say for me that we could well use his in the line in Nebraska." A heavy mist was falling.

Bible was met by Dr. J. C. Doherty, chairman of the university's athletic council and a group of Texas A. & M. college alumni. He coached A. & M. from 1917 through 1928, winning five southwest conference championships.

Bible will return to his home in Auburn, Ill., get his affairs in shape and return here within a few days. He then will submit to an operation. All going well, he will be fit and ready for spring training on March 11.

"I hope it's a boy," Joe commented. "We could use him as a pinch-hitter."

## All-Age Crown Won By Pointer Foolproof

Norias Aerotype Wins Second Place Under Adverse Weather Conditions in Southern Trials.

**By Thomas C. Chubb.**

ALBANY, Ga., Jan. 19.—First place in the all-age stake of the southern amateur trials was won today by Foolproof, a black and white pointer dog owned by Hillmans Walters, of Albany, and handled by C. C. Hamrick. Working under adverse weather conditions, he found and handled perfectly three covies and a single and while his range was not up to that sometimes seen at this trial it was quite wide enough considering the extremely hot weather.

Second place was won by Norias Aerotype, a lemon and white setter bitch owned by Walter C. Teagle, of New York and handled by Trammell Scott. Aerotype was much wider than Foolproof and she made two nice covy points but she was hard to handle at times and her style on point left a little to be desired.

Third place was won by Chief Otayaw, owned and handled by Sigo Farkas, the only setter to place in the day's event.

Weather conditions were better in the afternoon than in the morning, but it was a hot day and all the dogs knew it.

All things considered a good number of birds were found and handled. New Deal and Belvedere Bob, beside the winners all having one or more satisfactory covy points.

In the morning's running a number of good dogs ran races as wide as wider than the winners but did not have covy finds. Among these was Equipoise, 1935 amateur champion of America, who ran a pretty race and would have given the judges something to think about if she had made a point.

By winning the all-age stake Walter gains a leg on the Pineland trophy presented by Ambassador Robert W. Bingham.

At a meeting of the club last night all the officials were re-elected. They are: G. C. Hamrick, president, Albany; T. C. Chubb, vice president, Thomasville; Hillmans Walters, secretary, Albany; Joe Rosenberg, secretary, Albany; Bob Sealy and Sigo Farkas were re-elected as directors and Trammell Scott was elected a director to succeed Hollis Lanier.

**GATORS TO MEET EMORY TANKMEN**

GAINESVILLE, Ga., Jan. 19.—(P)—The University of Florida swimming team, southern champions the past two seasons, undertakes an ambitious schedule this spring. Announced today by Athletic Director Josh Cody, the schedule follows:

February 19—Emory in Atlanta (tentative).  
February 20—Clemson in Clinton.  
February 22—V. P. I. in Birmingham.  
February 23—University of Virginia, in Charlottesville.  
February 25—Duke, in Durham.  
February 26—North Carolina State in Raleigh.  
March 13—University of Georgia, in Gainesville (tentative).  
March 20—Clemson in Gainesville (tentative).  
April 3—Auburn in Gainesville (tentative).  
April 10—Georgia Tech, in Gainesville.  
The Florida swimmer team which has compiled a good record under Coach Frank Geovar, sustained heavy losses from its squad, and the half dozen lettermen must bear the brunt of the 1937 schedule. They are:

Captain Bob Collins, Gainesville; Bill Chase, Lakeland; Howard Skipper, Sebring; Lyman Haskell, Gainesville; Bob Bary, St. Petersburg, and Bob Quixley, Mt. Dora.

**COL. EWING DIES.**

**Benny Lynch Wins WorldFlyweight Title**

LONDON, Jan. 19.—(P)—Benny Lynch, of Scotland, won the world's flyweight championship today by outpointing Sam Montana, of Manila, in their 15-round title fight.

Lynch, holder of the British crown, scaled 111 pounds, 8 ounces for the bout. Montana, hitherto recognized as champion by the National Boxing Association of the United States, weighed 107 pounds, 10 ounces.

The bout settles a row over the 112-pound title which has been going on, more or less, since the death of Pancho Villa more than 10 years ago.

Montana, known outside the ring as Benjamin Gans, derives his title claim from a victory over Midget Wolgast, of Philadelphia, who claimed the championship at the same time as Frankie Genaro.

Thirteen thousand fans turned out for today's scrap. Lynch carried the fight throughout, chasing the faster Montana to all corners of the ring, although never able to land with his knockout punch.

**EDWARDS BEATEN.**

ORLANDO, Fla., Jan. 19.—(P)—Charles E. Edwards, Berwyn, Ill., defending champion, was eliminated from the national water shuffleboard tournament here today by L. L. Bessley, of Traverse City, Mich., and St. Petersburg.

## BITSY PLAYING FINEST TENNIS OF HIS CAREER

He's Undecided About Serious Cup Bid; Hopes To Win National.

**By Jack Troy.**

Bryan Grant, probably the world's greatest tennis player on clay, returned home last night following the outstanding twin triumph of his career—namely, beating Donald Budge and Frankie Parker, the nation's No. 1 and No. 2 players, in five-set matches on successive days. Grant is ranked No. 3.

Within the space of a week, he defeated Budge twice and Parker once. In his last tournament at Tampa, Fla., where he routed the U. S. L. T. A.'s favorite sons on successive days, he also won in the doubles, paired with Budge.

In other words, he played 13 sets of the hardest kind of tennis in two days, winning two titles and losing only four sets.

"I feel sure," Grant said last night, "that I am playing the greatest tennis of my career. That is to say, I think I have reached a peak of performance."

"I think it is true that fellows reach a sort of peak between the ages of 24 and 28. I have just turned 26 (he was 26 years of age on Christmas Day) and have a feeling I am at the top of my game. I've never been in any better shape, either."

**MAY NOT TRY.**

Bitsy, the bulldog of the baselines and the toast of the town, was not at all certain about making a serious bid for a place on the Davis cup team.

"I guess it is the ambition of all tennis players to make the Davis cup team. I don't know. The way I feel right now I don't know whether it's worth spending so much time away from business."

Wherein Bitsy Grant has a very good point in so far as he is concerned. He spent six months away from his business last season and all he got for it was a ringside seat at the Davis cup matches, watching Australia rout the Americans paced by aged Wilmer Allison. As a sort of salute, he was given a trip abroad and proved the sensation of the Wimbledon tournament.

Harder, Bitsy secretly would give anything to represent his country in the Davis cup matches. And the feeling of indecision on his part is no doubt engendered by past treatment.

He's really too good to wipe his shoes on the U. S. L. T. A. individually and collectively, and the day has come when they really need him. It would be something of a shock to them, perhaps, if he should decide to chuck it all.

**BUDGE LOST MONEY.**

Marion (Champ) Reese returned with Bitsy last night, and reported Budge was so in earnest about beating Grant at Tampa that he (Budge) put up a substantial sum of money on himself on the side.

"Budge really had it to grant afterwards. I guess you saw what he said in the papers, that 'Grant is too good for me?' Well, he really said it."

Budge was in wonderful condition, both at Miami and at Tampa. He handed the papers a bill of goods when he said he was not in shape. Everybody there knew that he had practiced for weeks with Ellis Vines on the Pacific coast getting Vines in shape to meet Perry. And that had beaten Bobby Riggs, national tennis champion, in a tournament on the coast.

"I want to tell you one thing," Reese continued. "Bitsy really out-smarted Budge in both tournaments. Then, too, he was hitting his forehand shots like Perry and his passing shots were wonderful."

**CLIMBS FENCE.**

"Once he practically climbed a fence to make a return shot on one of Budge's smashes. It was game point. Too, did he make it? Budge threw his racket down in disgust."

"The California boys at the tournament told me they had never seen Budge throw his racket before. Grant really had him going."

Bitsy last night explained about the bug in his eye in the semi-final match with Parker. "I think it was a mosquito. Anyway, I could hardly see," he declared.

And Champ Reese added, "Yeh, and the next day against Budge the eye was swollen almost shut. I sure was worried. But I guess Bitsy could beat him with both eyes shut the way he's playing this year. I mean, the way Bitsy's playing."

**MEET AGAIN.**

Bryan is scheduled to play in the tournament at the exclusive Surf Club in Miami, Fla., a week from Monday. Both he and Budge are entered. Then he plans to plunge into a lot of work until the tournament at Houston, Texas, in April.

"I don't intend to play mrs.-if stale," he declared. "Instead of going in for tournaments in a wholesale fashion, I just think I'll stick to practicing with Dr. Kells Boland at the Driving Club. I called up Kells and he said he was ready for me. I mean to stay in for a while."

Bitsy's prime ambition of the year is to win the national grass court champion at Forest Hills. He'll probably point for that tournament much more than the Davis cup team.

**Woman Wins \$1,213 On Daily Double**

MIAMI BEACH, Fla., Jan. 19.—(P)—Mrs. Henry F. Cowan had \$1,213.50 worth of proof today she can select winning greynhounds.

Mrs. Cowan held the only \$2 ticket sold at the track here last night on the doubles' combination of Bochora and Buster Mahout.

Her selections romped in first, Bochora in the second race and Buster in the third, to give Mrs. Cowan the largest pay-off of the season.

## CITIZENSHIP INSTITUTE SLATES NOTED MEN FOR ADDRESSES HERE

Officials Urged To Attend as Aid To Winning Constitution Prizes.

Officials of all Georgia counties were invited yesterday to attend the tenth annual Institute of Citizenship, February 8 through 12, at Emory University, when national known speakers will discuss better county and municipal governments.

Dr. Cullen H. Gosnell, director of the institute, issued an invitation through The Constitution since matters of vital importance to county officers participating in The Constitution's Progressive Government Award, will be studied.

"Some of the most noted authorities in America on county government will be present," Director Gosnell said. "Dr. Thomas H. Reed, of the National Municipal League, who will speak has had both practical experience as a government administrator and as a theoretical expert in county government."

Murray Seasonood, past president of the National Municipal League, and a speaker, also possesses an extensive knowledge of local government. George Spicer, of the University of Virginia, is chairman of the Virginia Commission on County Government. "These men will be heard at the institute and those interested in improving county government should attend as many valuable suggestions may be had in this way," said Dr. Gosnell.

Other speakers will include a state in discussion of better government will be Dr. Frank Prescott, of the University of Chattanooga, and Dean J. T. Askew, of Armstrong College.

## CODE ON WIRING UPHELD IN DECISION

Supreme Court Says Atlanta Electrical Regulations Are Constitutional.

Ordinances of the city of Atlanta providing that city engineers must approve electrical wiring in all houses and that electrical contractors must be licensed were held constitutional by the state supreme court yesterday in a decision reversing a ruling of Judge G. H. Howard in Fulton superior court.

Mrs. Morris Israel, operating a lunch stand on North Highland avenue, brought suit to enjoin the city and the Georgia Power Company from interfering with her electrical service. She had employed B. A. Russell, Jr. to wire her place and he had claimed Russell was not licensed and therefore the wiring must be done over. Mrs. Israel obtained a temporary injunction to prevent the enforcement of the city electrician's order, and the city filed a demurrer upholding the constitutionality of the inspection ordinance.

The high court held the demurrer should have been sustained and the injunction petition dismissed.

## COURT RULES AGAINST HAPEVILLE BEER BAN

Cases involving alleged violation of Hapeville's ban on sale of beer and wine were dismissed Monday night by Recorder C. McNeil Leach. The recorder held that the ordinance, passed by the new city council when it took office January 5, carried no penalty, and was therefore technically not in force. He also held that selling beer without a license was not a violation as there are no licenses issued.

The test cases involved K. R. McDonald, Central avenue dealer, and eight other beer sellers. Following dismissal of the cases, council members said a new ordinance will be proposed, aimed at remedying present legal defects.

## Unusual Housekeeping Problems Face Queen at Buckingham Palace

Elizabeth May Pay Occasional Visit to Kitchen To Bake Cakes; First Task Will Be To Find Nurseries for Her Two Children.

LONDON, Jan. 19.—(AP)—Queen Elizabeth won't have to attend to paying the butcher and the laundryman when she moves into Buckingham palace, but she will be confronted with a tremendous housekeeping problem.

A master of the household will take over most of the domestic routine that the new Queen has handled in the comparatively modest residence which she and King George VI occupy at 155 Piccadilly.

But in the vast palace of hundreds of rooms, she will be busy for many weeks getting settled, choosing her ladies-in-waiting and directing alterations in the royal apartments.

At court it is said newcomers take several weeks to learn their way about the miles of corridors linking the wings of the palace.

King George and Queen Elizabeth plan to move within a few weeks. When they do, the Duke and Duchess of Kent—the Duke is the new sovereign's youngest brother—may follow them into 145 Piccadilly.

The present home of the Kents, at 3 Belgrave Square, has proved too small for the palace's enlarged staff and some of the household officials have had to be accommodated in other buildings.

The Duke and Duchess of Gloucester, who probably will move shortly, the Duke, who is King George's younger brother, has decided to give up the suite he and his wife have occupied at Buckingham palace, going to York House, the residence of the abdicated Edward VIII when he was Prince of Wales.

One of Queen Elizabeth's first tasks when she moves into Buckingham Palace will be the selection of a nursery for Princess Elizabeth and Princess Margaret Rose, her two little daughters.

Then she will face staff problems. At 145 Piccadilly, there were only

10 servants, including two nurses and a gardener.

Buckingham palace has 150 servants, besides court officials, ladies-in-waiting and secretaries.

In addition to the state apartments—such as the throne room, the royal closet, the state dining room, the silk tapestry room, the state ball and supper rooms, and the blue, white and green drawing rooms—there are dozens of semi-state apartments and rooms devoted to members of the royal household.

The actual suite to be occupied by the King and Queen contains moderate-sized rooms, which formerly were occupied by the King's late father and Queen Mary. The new monarch did not wish to live in the ground-floor Belgian suite which his brother Edward used during his few nights in the palace.

Queen Elizabeth is fond of cooking. Friends say she may occasionally continue her practice of donning an apron and slipping into the royal kitchen to bake cakes.

Although extensive alterations are not expected at the palace, the Queen plans to bring most of her furniture from 145 Piccadilly for use in the private apartments.

Much of the palace still is crammed with heavy furniture of the Victorian style. Some of it may be taken away to make room for the Queen's bright chintz-covered sofas and easy chairs and the King's modern green leather office chairs and glass-topped desk.

Thus the palace, which some monarchs have found a depressing place in which to live, may take on a new brightness. King Edward VII is said to have been so upset by its somberness that he talked of abdicating. His grandson, now Duke of Windsor, who actually did abdicate, was seldom happy at Buckingham palace, which he used mainly for business.

Finley Jackson Graves, arrested Monday at the Citizens & Southern National Bank and charged with theft of \$11,000 from an unlocked teller's cage, yesterday found \$13,000 in bonds standing trial in state and federal courts.

The Kansas City youth, dapper and personable, was indicted by the Fulton grand jury yesterday morning on charges of larceny from the house. Bond was set at \$10,000.

He also appeared before United States Commissioner E. S. Griffith on narcotic charges and was ordered held under \$3,000 bond. United States District Attorney Lawrence S. Camp said federal bank robbery charges would not be pressed.

Reuben Garland, retained yesterday by Graves as his attorney, indicated at the commissioner's hearing he considered the narcotic charges an outgrowth of an illegal search on the part of FBI agents. The agents said they found three packages containing morphine on the youth's person when they searched him Monday after he was given into their custody.

Assistant District Attorney Ike Hay told the commissioner, however, the search was "instant to a legal arrest" and therefore legal. He pointed out that Graves was arrested by a bank officer and was merely in custody of FBI agents.

## PAY ROLLS IN ATLANTA GAIN \$4,211,500 IN '36

111 Branches Established Here During Last Year, Harrington Reports.

Atlanta's annual pay roll gained some \$4,211,500 during 1936 while 111 new factories, distributing, sales and executive organizations were established here by out-of-town concerns.

W. Eugene Harrington, president of the Chamber of Commerce, revealed yesterday in his annual report to members.

The new industries, brought here largely through the work of the industrial bureau of the chamber, employ 2,807 persons.

In addition, expansions by 20 Atlanta factories gave work to 379 persons, adding \$568,000 to pay rolls. The capital investment totaled \$627,000.

The report of the fire prevention committee showed Atlanta's fire loss during 1936 was approximately \$250,000, or 85 cents per capita, a figure slightly higher than during the past few years, but far below the \$6.60 per capita of 1930.

The agricultural committee discussed, in their report, the possibility of ultimate establishment here of an annual southeastern fat beef cattle show.

## YOUTH WILL FACE STATE, U. S. COURTS

Fulton Indictment for Alleged Bank Theft Added to Narcotic Charge.

Finley Jackson Graves, arrested Monday at the Citizens & Southern National Bank and charged with theft of \$11,000 from an unlocked teller's cage, yesterday found \$13,000 in bonds standing trial in state and federal courts.

The Kansas City youth, dapper and personable, was indicted by the Fulton grand jury yesterday morning on charges of larceny from the house. Bond was set at \$10,000.

He also appeared before United States Commissioner E. S. Griffith on narcotic charges and was ordered held under \$3,000 bond. United States District Attorney Lawrence S. Camp said federal bank robbery charges would not be pressed.

Reuben Garland, retained yesterday by Graves as his attorney, indicated at the commissioner's hearing he considered the narcotic charges an outgrowth of an illegal search on the part of FBI agents. The agents said they found three packages containing morphine on the youth's person when they searched him Monday after he was given into their custody.

Assistant District Attorney Ike Hay told the commissioner, however, the search was "instant to a legal arrest" and therefore legal. He pointed out that Graves was arrested by a bank officer and was merely in custody of FBI agents.

## Townsend 'Pensioner' Spends \$82, Swells 'Kitty' \$7.23 in Test Plan

Wants To Show 'That Fellow Gable Up,' But Mother Says 'No'

CHELAN, Wash., Jan. 19.—(AP)—Chelan watched the "kitty" grow to \$82 as "Pensioner" C. C. Fleming, who must spend \$200 in a month as a test of the Townsend plan, went happily on his way—buying toothpaste and cordwood and talking of a movie career for himself.

"Mother" Fleming definitely stopped that movie business, however. "We've still got \$118 of that money to spend here in Chelan," she cautioned her 63-year-old husband, the town's No. 1 citizen while his "pension" money lasts.

The "kitty"—into which goes the two per cent transaction tax every time one of the pension test dollars hands—grew to \$723 tonight as Fleming's expenditures reached \$82. On the welfare of the "kitty" depends the life and scope of the experiment, designed as the first practical application of Dr. F. E. Townsend's old age revolving pension plan.

The question was: "If \$82, changing hands rapidly, will accumulate \$723 in somewhat less than three days, will \$200 double itself in a month?"

There was no way of predetermining the outcome of the basis of results thus far because the \$82 has been in circulation since Sunday and some of it was spent only today.

How it works. Every time Fleming receives one of the dollars, the merchant receiving it drops two cents out of his own pocket into the kitty and spends the dollar as quickly as possible in another place where it will produce two cents, and so on.

Isom Lamb, who contributed the original \$200, said the money from the "kitty" would be used to give other Chelan oldsters a \$200 pension, if possible.

The Flemings dropped into J. H. Mundt's drug store today to purchase some toothpaste. Mrs. Fleming, 68, clung to her husband's arm.

"Next thing you know," Mundt observed, "those movie producers will be after you with a contract."

"I'd sure show that fellow Gable up—if mother would let me," Fleming replied.

But "mother" won't let him. From the drug store the couple went to a dentist's office, paid a bill and then bought two cords of wood, bought some more clothes for "mother" and looked into the purchase of groceries for a "banquet tomorrow."

## Glorious Adventure Awaits Atlantans in South America

By Sally Forth.

GLORIOUS adventure awaits the group of prominent Atlantans who sail from New York on February 4 aboard the steamer Rotterdam for a two-month cruise in South American waters. Mrs. Alonzo Richardson and her sister, Mrs. George Forrester, who are booked for the cruise, will precede the group by several days to the metropolis, where they will visit their sister, Mrs. W. C. Jarnagin, and their nephew and niece, Mr. and Mrs. Walton Forgy.

They will be joined on February 4 by Mrs. L. B. Sanders, Mrs. Norman Miller, Mrs. P. H. Randall, Mrs. Charles Rice, Miss Mary Rice and Mr. and Mrs. Arnold Broyles to begin 60 days of fascinating ship-board life, making their first stop at Havana. Sally hears that other Georgians plan to join the Atlanta travelers at the Cuban capital for the cruise.

The vessel will begin its cruise through the Straits of Magellan at Cape Pillar, and upon arrival at Buenos Aires the ship will remain in port for four days, during which time the travelers will enjoy sight-seeing, shopping, etc., in the capital of Argentina. Sufficient time will be provided at Montevideo to give the passengers ample opportunity to view the strange, intriguing sights of the largest city in Uruguay. In Brazil, Santos will be the Rotterdam's first stop. The inland trip to Sao Paulo will be made by train and three days will be spent in Rio de Janeiro, from whence the liner will proceed to Trinidad, well-known isle in British West Indies.

From that point the ship will sail around to the northern coast to LaGuaia, Venezuela. A motor trip will be made up to Caracas, capital of Venezuela, which is 2,500 feet above sea level and is surrounded by peaks of the Andes. San Juan, Porto Rico, is the last port at which the ship will stop before sailing to New York in time to reach there April 6.

When Dr. Floyd McRae decided to attend the New Year's Eve ball at the "Wild Man From Borneo," he needed some whitened bones and teeth to make his costume more impressive and realistic. But where to obtain such things was indeed a problem. It seemed that no one stock used bones and teeth.

It occurred to Mrs. McRae, always a resourceful person, that a packing house would be the place to find them. Accordingly, she inquired at one of the Swift plants. "Why, yes," she was told by the gentleman in charge, who raised an eyebrow and looked rather dumfounded at her request. "We have a great pile of old bones and teeth."

And he directed her to the rear of the plant. She had to make her way through a long warehouse filled with swinging beehives, hogs and other carcasses suspended from the ceiling. Not a pleasant experience, but at least she was getting somewhere.

As she was leaving the plant with the bones and teeth she had selected from the pile, she was again accosted by the nonplussed gentleman in charge. His curiosity had won out. "Madam," he addressed her, "will you please tell me what you want with those things?"

"Yes, certainly," replied Mrs. McRae, whose sense of humor had become aroused by his evident bewilderment. "You see, it's an old family custom at my house. On the first of the year, we always have bone soup with a few teeth floating around in it."

And with that she left the plant. And an amazed gentleman shaking his head and muttering to himself.

The telephone is a wonderful instrument for news, and of the most important messages Sally has received in a long time came to her ears yesterday. It concerns a prominent young Junior Leaguer who is a striking brunette. She has just received her sparkling engagement ring from a tall blond Tech man, whose prowess on the football field is well known.

The girl made her debut two seasons ago, has always been exceedingly popular and a leader in her group. She was an officer of the Phi Pi sorority in her school days at Washington Seminary, and—well, if Sally goes on much farther, you'll guess who it is too easily.

### Mrs. Hill To Address Hapeville Clubwomen.

"Citizenship" will be the subject of the address to be delivered by Mrs. Albert Hill at the meeting of the Hapeville Women's Club Thursday at the Hapeville auditorium at 2:30 o'clock. Mrs. Hill is a life director for service in Georgia Federation of Women's Clubs, and will tell of the bills that are to come before the national congress and before the Georgia legislature that are of vital concern to clubwomen. Mrs. H. A. Allen is chairman of citizenship for the Hapeville club and will have charge of the program for the afternoon.

At the recent meeting of the club, Mrs. E. J. White was welcomed to a new member. The club voted to issue a page of advertising and recipes in the cook book of the Georgia Federation. This will enable the club to put in full its quota on the Ella F. White Endowment fund.

The garden division reported a grade of 85 per cent made on a bracket tray arranged by Mrs. Chester Martin at the garden center.

## Miss Alston Becomes Bride Of Paul Refoule, of France

Constitution Staff photo—Slayton.

MR. AND MRS. PAUL REFOULE. The marriage of Miss Margaret Alston and Paul Refoule, of Orleans, France, was quietly solemnized at 10:30 o'clock yesterday morning in the rectory of the Church of Christ the King, with the Rev. Father John Emmert officiating in the presence of the immediate families.

Miss Frances Alston, sister of the bride, was maid of honor and only attendant. She was carried by several two-piece costume of navy blue crepe made along tailored lines with white braid trim. Her hat was of navy blue felt, and she carried an old-fashioned nosegay of pink sweet peas, blue delphinium and other flowers.

The lovely bride was given in marriage by her father, William Ott Alston, with whom she entered the rectory, and they were met at the altar by the groom and his best man, William Ott Alston Jr., brother of the bride. The lovely bride wore a two-piece model of navy blue sheer, the dress

featuring a white rolled collar and a draped sash of fuchsia and violet chiffon. The tight-fitting bolero jacket featured long sleeves, and she wore navy blue accessories and a smart blue felt hat. A bouquet of valley lilies was worn on her shoulder.

The bride carried a real lace handkerchief that belonged to her great-grandmother, the late Mrs. Augustus Alston, which was carried by several brides in Mrs. Refoule's paternal family.

Mrs. William Ott Alston, mother of the bride, wore an ensemble of smoke-gray wool worn with matching accessories and a shoulder bouquet of yellow roses.

Mr. and Mrs. Refoule departed after the ceremony on their wedding trip to Florida. Afterward, they will journey to Washington, D. C., to visit friends before sailing on February 14, from New York city, on the steamer Hansa, for their home in Paris, France.

## Combine patterns when entertaining at luncheon . . . . .

Be the first to present this newest idea when entertaining for debutante or bride-to-be. Fascinating, too, contrasting Royal Doulton's "Tintern" with wild orchids hand-tinted in cool woodland tones . . . with Wedgwood's classic "Edme" in ivory.

The two patterns, a foil for each other in color, but repeating the same theme of fluting. Finale to the setting, low English "Ridgeway" goblet with Waterford type cutting. ## My Day

By ELEANOR ROOSEVELT

REEDSVILLE, W. Va., Monday.—We actually did have that quiet afternoon I spoke about yesterday, until three gentlemen arrived at 5 o'clock with diagrams of the seating at the capitol for next Wednesday. That created some real excitement for a time, for it seemed to be a problem to find everyone a seat.

When the gentlemen left, I returned to my sitting room to find a violent game of dominoes being played by two older members of the family cheered on by Eleanor and Curtis, who jeeringly said: "Dominoes is an easy game." Their elders responded that it required great skill and that if they kept still and watched, they would soon discover what real players could do.

Mrs. Scheider and I took the train last night for Reedsville, W. Va., got off this morning and went up to the little tea room at Arthurdale for breakfast. Big glasses of orange juice, coffee, ham and eggs soon satisfied even the gentlemen. West Virginia ham seems to me to be particularly good, and I think it should have some of the renown of its cousin, the Virginia ham.

After breakfast, Mrs. Scheider and I went down to the newly opened Little Cottage hospital. Three beds and one bassinets constitute the equipment for hospital patients. One of us remarked in a joking manner that we would have to have a private arrangement with the stork so he would not bring twins, triplets or even single babies to shove each other out of the bassinets, which would certainly not hold more than one other-sized baby at a time.

The little operating room is well equipped, and the doctor's office, waiting room, kitchen and storeroom, where medical supplies are kept, looked in spic and span order, ready to care for all clinic cases.

Two girls from the National Youth Administration were folding gauze and taking a course in practical nursing under the doctor and nurse. From there I went over to the nursery school and visited every grade through the high school. Here, as well as everywhere, there has been an epidemic of flu and colds, two children have had pneumonia, one has been very ill indeed, but everyone seems to be pulling through.

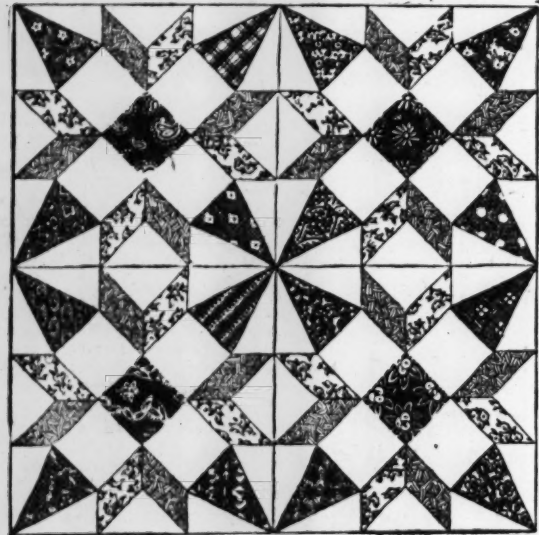

The lunch served to nursery school children seemed to me very sensible—creamed eggs, buttered beets, mashed potatoes and milk. The older children were having a stew which attracted us by its savory odor as soon as we came into the building, with bread and butter in addition.

These lunches seem to me a very important part of the school life, for the mothers serve them as volunteers, and it means a great deal to the health of the children.

We had a school committee meeting, a medical committee meeting and in a short time we will attend the Arthurdale homesteaders' meeting, then, in the late afternoon, we leave for Washington.

### CALORIES DON'T MEAN VITAMINS.

You can be overweight and still be malnourished! Overweight means an overabundance of fats, sugars and starches which are stored as adipose tissue, but minerals and vitamins cannot be stored, and unless they are available daily you are not well-nourished—calories to the contrary notwithstanding. You can get fat on a diet that is lacking in those important elements. You have been hearing about vitamins and minerals for years—but that does not mean you are getting your share. A daily dietary of toast and coffee for breakfast, a sandwich and coffee for lunch, and meat, potatoes, vegetables, bread, butter and dessert for dinner supplies plenty of calories and perhaps some spare, but it is lacking in the vitamins and minerals that promote health.

In other words, the average diet is high in calories and low in protective foods, and the result is overweight and a lack of resistance to disease. If you catch colds easily, suffer from frequent headaches and feel tired as a matter of course, something important is missing from your diet. Obviously, it is not calories.

Carrots and Milk Supply Vitamin A.

You do not catch cold with every change of the weather when you reinforce your menu with vitamin A. This you can do with concentrated carrots (they won't make you fat—only calories can do that) or with foods rich in vitamin A. But you must have your foods rich in vitamin A every day. So, eat your carrots, drink your milk or take a capsule—or go ahead and catch colds!

For the time, you overweights need not worry about vitamin B-1, since it stimulates appetite and promotes functioning of nerve tissue. You probably couldn't have a large appetite, so it wouldn't hurt you, but this vitamin is less important to you than to the underweights. Vitamin B-2, which is also known as riboflavin, is necessary to prevent a certain form of dermatitis. The richest known sources are brewer's yeast, liver and kidneys. Ac-

According to Sherman, milk is also one of the most valuable sources of vitamin G. As you probably know, it is furnished in orange juice, tomato juice and all citrus fruits. It does almost all the things for you that it is advertised to do! At any rate, you need this vitamin for your bones, teeth and disposition.

In the adequate daily supply of protective foods, with just the right amount of calories, lies the answer to your health and weight problem. It is true that the average person gets too many calories and too few minerals and vitamins, so what you must do is cut down on the sugars and starches and substitute fruits, vegetables and milk to decrease the calories and increase the protective foods.

You can look and feel twice as well on half as many calories, and twice as many vitamins.

### WPA SEWING GROUP GETS NEW QUARTERS

The WPA yesterday was given authority to take over the old postoffice station "B" at 200 Forsyth street, for use of the sewing project until termination of the lease. Postmaster Lon Livingston announced yesterday. The lease runs until June 30, 1937.

WPA officials said sewing facilities and employees would be moved from the present location, on Pryor street between Auburn and Edgewood avenues, as soon as possible. They said the new location was considered more convenient and that working conditions for the women employed on the project would be much better. The present location is in a five-story building. The new quarters are on one floor. Several hundred are employed on the project, but only a portion will be moved now, although eventually all will be housed in the new location.

## Mrs. Thompson Will Be Honored

Mrs. Charles Thompson, of New York city, is visiting Miss Corrie Hoyt Brown at her home on Muscogee avenue. She is the former Miss Elise Cotton, of Huntsville, Ala., and is an attractive and important visitor.

Among those entertaining in compliment to Mrs. Thompson will be Mrs. Norwood Mitchell, Mrs. George P. Hoyt, Mrs. John M. Blanton Jr., Mrs. W. R. Hoyt, Misses Rose Moran and Henrietta Chalmers.

### FRIENDLY COUNSEL

By CAROLINE CHATFIELD.

Problems of general interest submitted by readers will be discussed in this column. Correspondence invited. Your name held in confidence. Write Miss Chatfield, care The Constitution.

Dear Miss Chatfield:

This letter is a warning to mothers to be careful of new friends their daughters make. About two months ago my daughter brought an 18-year-old girl home for lunch. The girl was untidy, looked very wise and had a secretive manner of talking. She insisted that my daughter go home with her a few miles away and visit her. She claimed to be a dancing teacher. I refused to let my daughter go until I had time to investigate. This resulted in daughter's having a temper and a hard cry, but I was firm. I discovered that the dancing class was held in the back room of a tough tavern. The class consisted of little girls between the ages of eight and six. So I kept my child at home. Maybe this will be a good warning to mother's to supervise their children's friendships. A MOTHER.

Answer:

Yours is a timely warning, all right, but only the mothers that have made friends with their children can supervise their children's friendships. However conscientious a parent may be, however much care she may exercise to protect a child against dangerous alliances, she can't control the situations unless she has encouraged her child to confide in her, made her home a clearing house for the young friends and acquaintances. The tiny tots can be kept in and guarded from undesirable associates, but when they grow up, start to school and go about they meet all sorts and conditions of folks and then the problems multiply.

In the words of one mother who has had the usual struggle with strange friends the children have dragged in, "The only thing you can be certain about is that your child has no judgment about people and either you must supply it or all will come to grief." There's the rub: how to supply it. When the children are little the word of authority is enough, but later they must be reasoned with and persuaded to ease out of friendships that are dangerous to them.

No matter how well brought up a young girl may be, when she is thrown with older, wiser girls she is drawn to them magnet-like. They wear down the aura of mystery. They know all the answers and give little inklings of their worldly wisdom. Here is the information that the youngster has wanted and hasn't known how to get without embarrassing herself by questioning the grown-ups. Here is the delicious opportunity to tap the well-spring of knowledge and experience that has been closed to her. It isn't that she wants to follow in their footsteps but that she wants to know where the older, wiser ones have been, what they've seen and what they've done. Alas, "evil communications corrupt good manners," and this is what every parent wishes to avoid.

There is only one way: it is for mothers to keep the lines of affectionate communication open between her and her children; to have a hospitable home where they feel free to bring their friends and acquaintances in for visits and for meals. This gives her the opportunity to look the friends over, put her O. K. upon them or persuade the children to mark them off the list. Mother knows best, but she has to be on friendly terms with daughter to transfer her knowledge.

CAROLINE CHATFIELD.

Dear Miss Chatfield:

Until very recently I had a good position and was able to have my best girl out at least twice a week, but due to a stroke of fate I lost that position and was forced to take one at a much lower salary. I can no longer spend much money on her and don't know how to tell her for fear of losing her. A tip will be greatly appreciated.

REDUCED.

Answer:

Be frank with her, let a straight statement of the fact suffice. If she has any affection for you or any good sportsmanship, the disappointment you will both undergo will draw you closer together. You shouldn't be afraid to put her to the test. If she likes you only for what she gets out of you, now is the time for you to discover it. If she cares for you she will be just as eager to have you come and sit out the dates as she was to go gadding with you. A girl who won't put her friend at ease when he's embarrassed at losing his good position is cold and calculating and cruel.

### A Good Old Stand-By in One of the Finest of Face Powders

By MIGNON.

(The Mignon who writes this column does not sell, endorse or manufacture any cosmetics.)

I am constantly being asked for the name of a face powder. By fine, the inquirers mean a powder that is pure, that stays on and that is an "old reliable."

I needn't hesitate one minute to answer this question. I know of one so good that it is practically permanent in the field of cosmetics. I have been able to buy it in every big city and podunk town that I have ever been in if I needed face powder.

For people who do not like highly perfumed face powder, who have sensitive skins, who want something that will stay on well, you can't beat this one.

The boxes are not big and I can't remember when they have ever been changed. My guess is that the powder has been coming out in this package since the beginning of time. There is one thing that I can say about it, if you have a complaint to make, you will be practically in a class by yourself. It is so fine and lasts so much longer than some of these whipped-up powders that I feel you will agree with me it is a very excellent buy.

If you want to know where you can purchase any article mentioned in this column phone Mignon at The Constitution. Please do not write unless you live outside the city, in which case enclose a stamped, self-addressed envelope.

## THE COOK'S NOTE BOOK

By RUTH CHAMBERS.

By RUTH CHAMBERS.

When is your meat perfectly cooked? When it best suits your family's taste, no doubt. But perhaps you'd like his roast beef rare and Jimmy likes his well done, while you prefer a slice which is neither rare nor well done, just medium. One likes his bacon, very crisp, and another prefers it thoroughly cooked. Who is right?

In matters of taste there can be no argument, as some wise man has said. And surely we may be allowed our own preferences. Nevertheless there are certain definite standards by which meat cooking is judged, and you may be interested to know what they are, or if only to "check up" on your own methods.

So today I am going to devote the column to descriptions of ideal cooked meats, based upon the judgments of food experts who have carried on experiments with many different kinds of meats, and have compared the results of various methods of cooking and degrees of doneness. Perhaps you will want to clip it, for future reference.

### Attractiveness Characteristic of Well-Cooked Meat

Tastes differ as to rare, medium or well done for roast beef, but whatever degree of doneness, the finished roast should be shaped and of good color. The modern method of cooking is to roast at a low temperature in an uncovered pan with no water added.

## Contract Bridge

By ELY OULBERTSON.

World's Champion Player and Greatest Card Analyst.

Herewith is presented another portion of Mr. Oulbertson's latest work on contract, "The Gold Book of Bidding and Play," which is being reproduced in this column in daily installments.

### THE TWO-BID RULE.

Players not experienced in the play of cards, who can visualize their expected losers only with difficulty, will arrive at the same results by totaling their winners and subtracting from 13, the difference being the number of losers. The rules given for counting for one-bids should be slightly altered in counting for two-bids:

(a) Count all suit lengths as though they were side suits—two for six-card suit, one for five-card suit, one-half for a four-card suit, etc., whether you are counting the expected trump suit or side-suit.

(b) Count honors and solid suits at their full value, except that all finesses against kings must be counted as lost. An A Q combination must be valued as one winner, not one and one-half, for you cannot be certain of an entry so dummy to finesse. A guarded king should not be completely discounted, however, since if partner holds the queen of the suit it will win a trick.

The bidding:

North East South West

Pass Pass 1 spade Pass

3 no trump Pass 3 hearts Pass

4 hearts Pass 4 no trump Pass

5 no trump Pass 5 hearts Pass

The bidding was good. South, with his enormous hand, was tempted to go on to a grand slam after the responses he had received from North, but proper restraint himself by remembering that North had passed original spades in North's hand, there still was no assurance that the heart and spade suits both were solid.

West opened his fourth best diamond, and declarer won with the ace. Declarer first tried out the trump situation by laying down the king and queen. When East failed to follow to the second lead, declarer properly switched to a spade. Dummy's ace won, and the eight spot was returned.

At this point a finesse amounted to an insurance policy. With both opponents following to the first lead of spades, and East playing a small card on the eight spot, the only catastrophe possible was to have the king ruffed away. If the jack were lost to the queen in West's hand, or were ruffed by West, no harm would be done. In the first instance, the rest of the hand would be a mere routine. The second, declarer always could ruff another spade in dummy for the solidification of his suit. Declarer's actual play of the king therefore was unnecessary and reserved the horrible fate that followed.

West ruffed, and shrewdly returned his last trump. Since dummy, as well as declarer's hand, now was reduced to one trump, East was left with the queen of spades with a guard, the declarer could not avoid the loss of the spade queen.

It would be difficult to find a situation easier to analyze than this one. The conclusion must be, therefore, that declarer did not feel it worth while to think!

TODAY'S QUESTION.

Question: What is meant by a "free five no trump bid?"

Answer: By "free five no trump bid" is meant a bid of five no trump which is neither preceded by the same player's four no trump, nor is some conventional response to a previous artificial bid such as partner's four no trump bid or asking bid.

## Interesting Georgia Personalities

VIA THE ZODIAC

By BERNICE DENTON PIERSON,

Foremost American Astrologer.

W. G. HASTINGS.

W. G. Hastings, outstanding business executive, magazine publisher and prominent member of the Georgia legislature, was born with his sun in the zodiacal sign Scorpio.

Mr. Hastings' horoscope presents an excellent example of the energy, determination, self-control of the Scorpio nature.

The planet Mars rules the particular part of the sign under which Mr. Hastings' birthdate comes. This bestows unlimited energy, a friendly disposition, one fair-minded and justifying.

He would have unusually good business ability, the capacity for carrying out big enterprises.

The Saturn-Neptune position gives the power of concentration, considerable shrewdness and tenacity. The Sun-Saturn position gives great capacity for work and high ideals.

The majority of planets in fixed signs, well-aspected, gives him the ability to accomplish whatever he sets out to do.

You can get your complete astrological forecast through The Atlanta Constitution, compiled by Bernice Denton Pierson, one of America's best-known astrologers.

All you have to do is fill in the coupon below, inclosing a self-addressed, stamped envelope, together with 10 cents in coin to cover mailing cost. You will then receive through the mail certain pertinent facts which deal astrologically with the sun at the time of your birth, called a sun chart, and with this sun chart, a series of numbers which will enable you to identify the planetary interpretations, which will be published in The Atlanta Constitution each day, dealing with the influence of a given planet on the day of your birth, according to the rules of astrology.

## Peachtree Garden Club Beautification Project Moves Forward With Success

A tremendous amount of trash has been removed from Peachtree road, from Piedmont road to Buckhead during the past week, through efforts of the Peachtree Garden Club, in connection with its roadside beautification project. Sidewalks have been graded and covered with concrete on both sides of the road beyond Buckhead to Piedmont road.

Vacant property, with a frontage of 200 feet on the east side of Peachtree road, adjoining the business district, is being improved. The gutters are being filled and drainage is being constructed to direct water into proper channels. This drainage previously formed stagnant pools in the rear of business places. A six-foot sidewalk is being graded along this stretch of property, which was without sidewalks. When the necessary construction has been completed, the planting will be developed in accordance with a plan designed by Miss Edith Harrison, landscape architect for the project. Mrs. Henry Newman will have charge of the planting and maintenance of this property.

Mrs. Frank Fleming, chairman of the E. Rivers school grounds, appointed by the Parent-Teachers' Association and the Peachtree Garden Club's beautification committee, states that a six-foot concrete sidewalk with curb will be placed along the 850 feet of frontage of the school and that a barrier will be placed at top of the high bank, as a protection for children and other pedestrians. On the east side of the road, across from the E. Rivers school, the sidewalk will be paved by the owners of the property, A. J. Tolson and the William Melburne estate.

The approach to the Seaboard

bridge will be cleared and beautified on each side of the road, the property on the east side being owned by the Moor estate. Mrs. Evelyn Harris is in charge of planting and maintaining this work. The hill at Peachtree and Memorial drive is being graded by the county and will be planted as soon as the grading is completed. The Underwood estate, owner of this tract, will have the sidewalk paved and curb placed abutting the property.

Mrs. Edward Inman, chairman of the petition for paved sidewalks, states that the owners of property on the east side of the road have signed the petition for paved walks and curbing where needed. The property owners on the west side of the road who have notified the Peachtree Club of their desire to pave, are being visited by appointment by Mrs. Inman and her committee, composed of Mesdames J. N. Goddard, Frank Fleming and Albert Thornton.

Owners of property on Peachtree road, desiring information in regard to sidewalks, curbing or repairing, are urged to get in touch with the club. The proper disposal of garbage in the county is receiving the attention of hundreds of citizens on Peachtree road and lateral streets. The menace of carelessly hauling garbage and trash on the road will be remedied.

The circulation departments of the Atlanta newspapers are co-operating with the Peachtree Garden Club's "keep clean" plan in urging the boys who deliver the papers, to properly dispose of the wrapping papers and twine in which the papers are delivered to the newsboys.

## Disciples of Christ To Hold Convention Here Next Friday

Loyalty and victory convention of the Disciples of Christ will be held at Peachtree Christian church beginning Friday at 1 o'clock. Supper will be served at 6:30 o'clock with an evening session completing the program.

"Through Loyalty to Victory" will be the theme of the convention and local church goals will be studied and the world-wide activities of the church will be emphasized. Able leaders in their respective fields will lead discussion groups and bring information helpful to local churches in their efforts to forward the on-going program.

Speakers include Herbert Smith, of Africa, director of the Congo Christian Institute at Belgrade; Miss Genevieve Brown, representative of United Christian Missionary Society; Mrs. L. O. Turner and Bruce Noy, state secretaries.

Locality and victory conventions will be held at Fitzgerald on January 18, at Guyton on January 19, at Sandersonville on January 20, at Athens on January 21.

At the close of the missionary year the meetings will total 251. Last year 68,846 people attended these meetings throughout the country.

ardent ones. With a proprietary touch she straightened his new tie.

"I know one girl who'll be tearing her hair over this," she remarked irreverently. "Now, tell me the truth. Are you going to be begging your way to marry her?"

"Rot!" He reddened. "What gave you that notion?"

How about Uncle Nick's secretary, Elsie Dilworth? Is she another victim?"

Diana had meant this as the wildest jest. The sudden frown contracting Adrian's brow proved it had been no random remark.

"That poor nut," he exclaimed under his breath. "Now, who's been gassing to you about her?"

"Why, no one! Don't you remember?"

"No," he said. "What boarding place because we knew about it and Elsie—and because it was close to your hospital. Months ago you told me she'd been extremely nice to you. I was asking you, that all?"

"Well, she's gone now." He spoke shortly. "And a good job, too. Bit wrong in the top story if you ask me. I don't think I should have a secretary, but—she was getting to be a confounded nuisance in some ways."

"O, was she?" Diana watched him with demure amusement. "I, dear, thought she was a capital girl. I wish to talk over, shan't we? How I wish I hadn't to go home!"

"Go home? Why? I thought we'd have a little together?"

"I'd love it! Especially you see I've not yet seen Mummy, and if I'm not to catch her before she leaves for the theater I must fly this instant!"

"I'll be with you in a minute, dear, and we'll break the news to her. How enchanted shall be when she hears!"

"What's she?" She fancied he was showing a slight return of diffidence and hesitation. "I hope so—but, no. I won't come with you. I ought by rights to put in another stretch at home, but I can't quite get to go together later, say about ten."

"Of course! We might fetch Mummy after the show, and hold a little celebration at the flat. Daddy'll be home, and I'll have to nurse him up."

Poor lamb, he's a bit under the weather these days. Now let's hunt a taxi!"

No buses for me this night!"

And they passed by the cash-desk, the dark-robed one with the white apron, and stared at them with singular pointedness.

erted house, the Lakes had their  
 abode. As Diana sprang out she  
 noticed a large Sunbeam car drawn  
 up at the entrance. It seemed far  
 strange to her, as she had bestowed a  
 second glance at the man of whom  
 she had been thinking came out of  
 the house door.  
 "What of it, himself—but what had  
 happened to him? He was not smil-  
 ing. Indeed, as he came toward her  
 —squat, rugged, powerful—the  
 strange set of his eyes and his usu-  
 ally humorous gave her a curious  
 shock. Then she remembered what  
 Aunt Rose's death must have meant  
 to him, and she forgot her power to  
 forget it."  
 "He touched his arm,"  
 "Why, Uncle Nick?" she cried.  
 "Aren't you going to speak to me?"  
 "He turned startled, and she  
 saw that his shadowy eyes met her  
 without recognition. She saw, then,  
 that although his tremendous dynamic  
 force seemed unimpaired, he had quite  
 lost his power of association. His  
 bursting with health and vigor, had  
 become an old man."  
 "There was an instantaneous altera-  
 tion in his color, took in his god-  
 daughter's identity. His smile re-  
 turned, forcibly bringing into play  
 the deep, semicircular grooves which  
 in his youth had been so little no-  
 ticed."  
 "Well, well, well. So it's little  
 Did! Home again?"  
 "Just. Have you been calling on  
 him?"  
 "He had laid a hand on her arm to  
 stop her fumbling in her purse, but  
 she did not realize his intention till  
 she saw his other hand reach into  
 a large bag of gold and draw out a  
 couple of silver coins, hand them to  
 her taxi driver."  
 "O, you mustn't!" she begged, try-  
 ing to snatch them from him.  
 "Nonsense, nonsense! Don't often  
 get the chance, do I?"  
 Though he detained her, patting her  
 arm, in a friendly precaution.  
 He seemed to hesitate, and then of his  
 immediate purpose, and only tardily  
 to realize he had not answered her  
 question.  
 "O, the family?" he repeated absently.  
 "O, I brought your mother home—  
 from my place, you know. I'd a word  
 with your father, too, but he was  
 so busy. I'll be glad to see you, sup-  
 pose you've not seen either of 'em yet?"  
 "No, it was so hurried. I just  
 thought I'd take them by surprise."  
 "I'm glad."

When You've Forgotten Your Handkerchief, Don't Try to Be Surreptitious About It.

Sometimes, even the best trained girls, forget their handkerchiefs. And when it's cold and nippy outside, and very warm inside, the absence of a handkerchief can develop into a major problem.

Now of course the best method of handling it is to step right up to your hostess, or any other promising female in the room, and tell her you have forgotten your handkerchief, and ask her if she has an extra one that you could borrow. This is direct, and to the point, and quite genteel.

up with a mistress who intimidates her, and from whom she doesn't dare borrow a handkerchief. In that case, she usually uses one of the old tricks: . . . Look at a picture on the wall, and when her nose slips out, she takes her handkerchief and slips out into the hall on the pretext of getting something from her coat, and makes a dive at the hem of her slip. Neither of these methods, however is to be recommended. . . .

In a situation is desperate it is much more sensible to excuse one's self without explanation, and depart. You'll just have to take the consequences. You'd rather go home, wouldn't you, than sit around and be exposed as a girl with a sniffle!

## LUMBERJACKS AND THEIR WORK.

### III—Hauling the Logs.

The work of lumberjacks is far from being over after the trees are cut down. There are many things to do after that!

The next step is to get the tree ready for hauling. The custom is "limb" the tree soon after it falls the ground, that is, to cut off the branches. Then the trunk is cut in pieces.

**A tractor hauling logs.**

The trunk is cut into logs which may differ a great deal in length. Most often they are from 8 to 10 feet long, but sometimes much longer ones are cut. In Douglas fir forests the timbers may be cut to a length of 10 feet or even more. The logs are piled up and the redwood has put in order for logs from 100 to 160 feet long!

What is the best way to get logs out of the forest? This is an old, old question which has been answered in many ways. A favorite method has been to sprinkle water on the slippery covered roadsides so the water will freeze and provide an icy path for sliding out the logs.

In some cases a wooden trolley has

been built down the sides of hills of mountains. In winter the trough can be filled with water, and after the water freezes there will be a fine icy slide for the logs. As many as half a dozen logs may be fastened together with crossbars and started on the

Another method of transport is to place logs on huge sleds drawn by horses or mules. In the old days of lumbering, oxen were often put to work pulling such sleds.

When there is no snow or ice to help in moving the logs, the task is harder. The logs may be loaded on motor trucks, or on wagons. Branch railway lines have been built to reach into the heart of some forests, and this method is successful where the cost of building is not too high.

One interesting warm weather means of transport is the "flume." This is a wooden trough supplied with water by a mountain stream or reservoir. Logs are placed in the flume, and may float down a great distance. The best results are obtained where the slope is not very steep, and the water can be kept in control. Some flumes have been built to great length, one of these being the 55-mile-long Madera flume in California.

Framed in the small doorway of the hut and silhouetted against the lesser darkness beyond, Tarzan saw the figure of his stealthy nocturnal visitor. Helpless in his tight bonds, the Lord of the Jungle could not defend himself. He could only wait.

... Jane, too, was waiting, hoping that the lion below would grow discouraged and go away, but the beast continued its determined vigil. "The lion is master down there," she announced; "so we'll simply have to make the best of it up here for the night."

And so it was the unhappy, uncomfortable party shivered and grumbled through the long night—a night made hideous by the roars of hunting beasts and the pitiful cries of their victims. But at last day broke with that uncanny tropical suddenness.

Jane looked below. The lion was gone; at least he was not in sight. But she was too wise in the ways of the jungle to take anything for granted. She must be sure the beast was not hiding. So, with eyes and ears alert, she dropped down through the trees.
